1. Weather conditions and temperature should be reported at least once in six hours by and recorded (if at least one is kept) in the dispatchers office, and when so reported and recorded they will be considered as the official report for the division in which they are reported. Dispatchers will be responsible for the correct and complete record of the weather, and if it be not reported and recorded, they will be held responsible.
2. At 6:00 or 7:00, as the case may be, shall be shown on the night and first tour of each employee's record, a complete summary of the work of the day, showing the number of miles run by each class of service, the number of hours worked by each class of service, and the number of hours lost by each class of service.
3. Dispatchers reporting engines dead in mainline when twelve miles stop at stopping stations, both eastbound and westbound time shall be recorded.

The Atchison, Topeka and Santa Fe Railway Company
