Through a miracle of electronics...

YOU RIDE WITH YOUR SHIPMENT!

As indicated in the diagram above, Car-Fax Reporting Center receives constant information on the movement of every carload of freight moving over C&NW lines. This information is relayed to its destination or interchange and also to our traffic offices throughout the country. Up-to-the-minute location of any car is available by simply calling the C&NW traffic office nearest you.

Car-Fax, North Western's new and exclusive electronic car locating system, reports carload shipment progress as fast and as accurately as if you, yourself, were riding in the locomotive cab.

It works this way: Whenever a car passes check points or enters or leaves the North Western System, IBM machinery speeds into action, detailing the move. If it is delayed, Car-Fax notes that, too. Almost instantaneously, car-coded information is processed and transmitted to all traffic offices concerned.

Accurate information on your car of freight is available to you when you want and need it. In addition to location, Car-Fax notes destination, point of origin, routing, contents and type of car, number, date and time of movement . . . data that can help you pinpoint deliveries to pre-plan production schedules or facilitate reassignment.

Use Car-Fax. Route your freight North Western and watch Car-Fax work for you. We're sure you'll be delighted with this new freight service that gives you the score—now!

SEAWAY...

NORTH WESTERN

OPENS MIDWEST MARKETS TO WORLD TRADE

Because the Chicago and North Western Railway is the only railroad serving all the ports on the western shores of the Great Lakes, it actually extends these new sea-ports far into the middle-west.

And well equipped it is to handle the anticipated tonnage which will bring added prosperity to the farmers and makers of goods throughout this rich country.

Handling facilities at all North Western "ports of call" have been improved to service the usual and unusual shipments of freight.

Cars—Right-of-way—Power—Schedules . . . all have been geared to handle the most exacting demands of any foreign shipment to or from the great middle-west of America.

Our Foreign Freight Department welcomes your inquiries concerning foreign shipments.
Address: **RAYMOND J. DEGNAN**, General Foreign Freight Agent

Picking a **Plant Site** takes experts on many things!

Selecting a plant site involves everything from topographical surveys to tax analyses. That is why, when you plan your move, we urge you to recruit the manifold services of North Western. Here at your call are experts in engineering, construction, geology, transportation, real estate, law, taxation, marketing, public relations. In fact, every phase of site selection is covered by men trained in a specific field. We feel that only in that way can you be certain that the information delivered will be factual, accurate and up-to-the-minute.

Here are a few of the services we perform:

- *Analyze topography, soil and water conditions*
- *Report in detail on labor supply and all utilities*
- *Investigate all tax and zoning laws*
- *Check proximity of raw materials required*
- *Report on market accessibility and entire marketing area*
- *Study housing, school and all community facilities*
- *Condition the community for industry acceptance*
- *Furnish complete information on rail, air, highway and water transportation.*
