RULES AND REGULATIONS.

BETWEEN NOVEMBER 1st AND MAY 1st OF EACH YEAR, THIS COMPANY WILL NOT ACCEPT CARLOAD SHIPMENTS OF PERISHABLE FREIGHT LOADED IN COMMON BOX CARS, UNLESS LINED WITH FALSE FLOORS AND SIDES, AND EQUIPPED WITH STOVES AND A MAN IN CHARGE, AND WILL NOT ACCEPT LESS THAN CARLOAD SHIPMENTS OF PERISHABLE FREIGHT ONLY ON SUCH DAYS AS REFRIGERATOR CARS ARE SCHEDULED FROM POINTS OF SHIPMENT TO DESTINATION SHOWN HEREIN.

CARLOAD SHIPMENTS OF PERISHABLE FREIGHT LOADED IN REFRIGERATOR CARS WILL BE ACCEPTED, PROVIDED CARS ARE SO LOADED THAT HEATERS CAN BE PLACED IN THE CAR, WHICH WILL PERMIT OF HEATER PROTECTION, WHEN NECESSARY, IN ORDER TO PROTECT CONTENTS.

AGENTS WILL PLEASE SEE THAT SHIPPERS OF PERISHABLE FREIGHT ARE FURNISHED A COPY OF THIS SCHEDULE, AND REQUEST THAT THEY ARRANGE TO MAKE THEIR LESS THAN CARLOAD SHIPMENTS OF PERISHABLE FREIGHT ON SUCH DAYS AS REFRIGERATOR CARS ARE SCHEDULED FROM STATIONS SHOWN HEREIN.

Agents will confer with shippers of Butter, Eggs, Fruit and other Perishable Freight, except as restricted, and make the tonnage as large as possible.

LOADING AND HANDLING.

When a Scheduled Refrigerator Car leaves a station for pick-up shipments to Chicago, there must be sent with the car, a way-bill giving the following information:

Regular Scheduled Refrigerator Car from.....to
(Station)

Chicago. Car No....., Date.....191..

Shipments for Way Stations must not be forwarded in these cars unless specially authorized on the schedules herein.

The C. & N. W. Ry. Refrigerator Cars are intended for the transportation of Butter, Eggs, Cheese, Fruit and such Perishable Freight as will not contaminate other articles in the same car, or leave an odor in the car that will make it unfit to transport dairy line freight.

Therefore, Agents will not load Fresh Meat when not covered with canvas, or Meat and Fish without being packed in ice in boxes or barrels, nor Hides, Onions, Cabbages and like freight into the Refrigerator Cars, unless special permission is given them by wire or in writing, by the Superintendent of Transportation, or stated on the schedules herein.

Agents should avoid, as much as possible, leaving Butter in the sun, awaiting arrival of train.

Great care must be taken in the handling and loading of Butter, Eggs, etc., into Refrigerator Cars.

Butter should never be loaded on top of packages containing Eggs. All Butter packages should be carried or trucked to position in car, and never rolled.

Eggs in cases should be stowed lengthwise in the car, and where Refrigerator Cars are furnished with cross bars, these bars should be put in place as the car is being loaded.

Butter and Eggs should not be stowed so high that packages will fall and break open.

Agents must see that each package of Butter, Eggs or Cheese in less than carload lots is plainly marked with the initials and shipping number of consignor, and in billing the property, note on the way-bill the initial and shipping number in order that any shortage that may occur, may be promptly located. This rule is important, and must be carefully observed by all Agents.

Agents will be particular to give receipt for actual number of packages, and in accordance with condition of packages or contents. If in bad order, or Butter soft, notation must be made on receipt given.

When cars are loaded and contents tallied by shippers, Agents should note on receipt issued, "**Shippers' Load and Count.**"

Cars must be re-sealed at every station where they are opened, or former seals broken.

Care must be taken to see that the air-tight doors of Refrigerator Cars are shut tight and properly fastened. Persons in charge of cars must give this special attention.

Agents and Conductors must immediately notify the Division Superintendent by wire when cars are loaded full. Also in case of accident or delay to Refrigerator Cars in transit.

Agents will give their personal attention to these requirements, calling attention of train men thereto, and will report promptly to Division Superintendent the failure of any employe to carry out these instructions properly.

When the temperature is too low to make it safe to transport Perishable Freight in Refrigerator Cars, Agents will refuse to receive same, explaining to the shipper the cause, and advise him that the shipment will be received and transported as soon as it can be done with safety.

FOREIGN SHIPMENTS.

All less than carload consignments for delivery to connecting lines in Chicago, will be immediately transferred on arrival, without additional expense.

In way-billing freight shipped in Refrigerator Cars under schedules consigned to care of lines east of Chicago, you will make a separate way-bill freight for each line, and not make one way-bill to cover various consignments to different Eastern Lines and Chicago local as heretofore.

Instructions in regard to way-billing freight to Chicago, when consigned to Eastern Lines, will not apply on less than carload shipments loaded in these cars. All such shipments must be way-billed to State Street or Grand Avenue, according to the division on which the billing station may be located.

Shipments in carloads for Eastern Points will be way-billed in accordance with present instructions, or as modified from time to time, designating the station at which transfer is made to the respective Eastern Roads. Carloads will be promptly delivered to connecting lines when destined beyond Chicago.

C. & N. W. Cars must not be ordered for through shipments to points off of the C. & N. W. Ry. System.

Foreign Refrigerator Cars will be furnished for shipments of Perishable Products destined east of Chicago, to go through without transfer in lots of 15,000 pounds or over, from any one point or for pick-up shipments, but must not be ordered for shipments aggregating less than 15,000 pounds at first loading station. Freight must be ready at intermediate stations to avoid the necessity of setting out the car.

Less than 15,000 pounds must be forwarded in our Local Refrigerator Cars to Chicago, and local shipments for Chicago must be loaded in Foreign Refrigerator Cars.

Shipments must be consigned via the line the car represents.

The attention of Agents is called to General Circular, dated November 1, 1904, as follows:

In order to avoid damage to Perishable Property not carried in heated cars during cold weather, the following general instructions (when not in conflict with those given on the way-bill, or written orders given by the shipper, consignee or messenger in charge), should be complied with:

Such cars should be placed in roundhouses, when heaters are not available, and the temperature is, or below, that given in the following table, and kept there unless ordered out in writing by the shipper, consignee, or messenger, until the temperature rises above the danger point.

Commodity	Loaded in	
	Box Cars	Refrigerator Cars
Green Fruit (except Bananas).....	25 above zero	10 above zero
Bananas.....	40 " "	15 " "
Vegetables.....	25 " "	10 " "
Beer.....	20 " "	10 " "
Cheese.....	20 " "	10 " "
Liquids.....	20 " "	10 " "
Eggs.....	25 " "	10 " "
Canned Goods.....	25 " "	10 " "

Ventilation.—After Refrigerator Cars have been placed in the roundhouses, the ventilators or hatches should be opened and the plugs taken out and left open while the cars are in the roundhouse.

Before cars are taken out, the plugs must be put in place and the hatches or ventilators closed, unless the outside temperature is above freezing, in which case the instructions given on the billing as to ventilation will govern. When property is in box cars the side doors must be partly opened while in round-houses and closed and sealed before taken out.

Roundhouses.—The temperature of roundhouses when occupied by cars of Perishable Freight should not be allowed to get above 60 degrees above zero, or below the danger point.

Dressed Poultry, Fresh Fish and Meat.—These cars should not be put in roundhouses. Instructions by shippers on billing as to re-icing must be complied with. Cars delayed must be inspected and kept well iced, using the per cent of salt indicated, and the ice well tamped down.

Complying with these instructions will prevent danger.

All C. & N. W. Refrigerator Cars and all foreign Refrigerator Cars when on the C. & N. W. Ry., are in charge of E. E. Betts, Supt. of Transportation, Chicago.

The foregoing regulations relate wholly to the operation of Refrigerator Cars on the C. & N. W. Ry., but can be accepted in general terms as governing all the cars scheduled herein.
