INSTRUCTIONS

1. Weather conditions and temperatures shall be reported at least once in each 24 hours, and oftener when the conditions change materially. Reports shall be recorded in the space provided for each other station as report number and hours.
2. Each train dispatcher shall sign his name and record the time of going on and off duty in the space provided.
3. Train Symbols, or, in case none has, train No., shall be shown at the initial and at the terminal stations.
4. The number of loaded cars and the number of empty cars with the sum of the tonnage ratings of the loaded and empty cars, shall be shown in the space provided for each terminal, and at all intermediate stations as changes positioning a mixed train has been made, thus:

15	10	25

In the column headed "Total Cars and Tonnage Handled," give the total number of cars and tonnage.
5. Train Dispatchers will be responsible that all movements of trains and engines, both entering and departing from shall be recorded.
