Between National Avenue and Milwaukee, trains will be governed by Milwaukee District Terminal Time Table.

Nos. 417 and 217 will not exceed five (5) miles per hour passing Zion to discharge U. S. mail.

Kenosha open Sundays and Holidays..... { 5:00 a.m. to 1:00 p.m.
1:30 p.m. to 9:40 p.m.

Kenosha open Week Days..... 5:00 a.m. to 10:00 p.m.

Racine open Week Days, Sundays and Holidays..... 6:59 a.m. to 11:59 p.m.

Waukegan, Racine Jct., St. Francis Tower, National Ave. and Milwaukee open continuous.

FREIGHT TRAINS, TRANSFER TRAINS AND SWITCH ENGINES MUST CLEAR THE SCHEDULES OF Nos. 149, 167, 239, 151, 153 AND 155 TEN MINUTES.

★ No. 115 will run on Friday, May 28; Friday, June 4; Saturday, June 5; Friday, June 11; Saturday, June 12; Friday, June 18; Saturday, June 19; Friday, June 25; Saturday, June 26; Friday, July 2; Saturday, July 3. Then daily from Tuesday, July 6 to Saturday, September 4 inclusive. Then will run on Friday, September 10; Saturday, September 11; Friday, September 17; Saturday, September 18; Friday, September 24 and Saturday, September 25.

To insure safety in handling passengers to and from a train standing on one of the easterly tracks in Milwaukee Passenger Station, other trains entering the train shed on a track between the station and the track on which such train is standing will exercise great care to prevent accidents. Station attendants will assist in protecting such movements to the fullest extent possible, and enginemen on approaching engines will keep sharp lookout for signals.

All trains will approach the crossovers at the north and south ends of Milwaukee Passenger Station at Restricted Speed, prepared to stop within their vision, and proceed on signal from switch tender, and in absence of such signal will come to a stop and flag themselves into station. When operating on station tracks between the crossovers at the north and south ends of the Milwaukee Passenger Station, trains must move at Restricted Speed, prepared to stop short of engines or cars that may be occupying the same track.

No. 125 will not carry passengers.

On New Years Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day, suburban trains will run on Sunday schedules.

Nos. 125, 217, 149, 119, 151, 153 and 155 will also run on above days.

No. 403 will not run until June 29, 1948, and will be discontinued after September 3, 1948.

Between Waukegan and National Ave.—Westward

FREIGHT TRAINS, TRANSFER TRAINS AND SWITCH ENGINES MUST CLEAR THE SCHEDULES OF Nos. 149, 167, 239, 151, 153, 155, 401, 209, 163, 152, 156, 158, 214, 240, 168, 216, 400 AND 220 TEN MINUTES.

Nos. 295 and 187 will not exceed fifteen (15) miles per hour passing National Avenue.

Between National Avenue and Milwaukee, trains will be governed by Milwaukee District Time Table.

To insure safety in handling passengers to and from a train standing on one of the easterly tracks in Milwaukee Passenger Station, other trains entering the train shed on a track between the station and the track on which such train is standing will exercise great care to prevent accidents. Station attendants will assist in protecting such movements to the fullest extent possible, and enginemen on approaching engines will keep sharp lookout for signals.

No. 284 will operate daily except Sunday from National Ave.

All trains will approach the crossovers at the north and south ends of Milwaukee Passenger Station at Restricted Speed, prepared to stop within their vision, and proceed on signal from switch tender, and in absence of such signal will come to a stop and flag themselves into station. When operating on station tracks between the crossovers at the north and south ends of the Milwaukee Passenger Station, trains must move at Restricted Speed, prepared to stop short of engines or cars that may be occupying the same track.

Between Crawford Avenue and River Jct., trains and engines will operate in accordance with Rule 93 amended.

Communicating office open week days: Skokie, 7:00 a.m. to 4:00 p.m.; Mayfair Continuous.

Single track in operation between RIVER JCT. and VALLEY.

Nos. 609, 611, 619, 555, 780, 678 and 680 will not carry passengers.

On New Years Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day, Suburban Trains will run on Sunday Schedules.

No. 609 is superior to No. 634.

Nos. 611 and 619 are superior to No. 650.

No. 713 is superior to No. 780.

No. 657 is superior to No. 678.

No. 669 is superior to No. 680.

OPERATION AT RIVER JCT.

Both ends of crossover east of junction switch are equipped with spring switches set for crossover movements in either direction and will permit main line trailing movements to be made without operation of switch stand. Rules 104F and 104G.

The normal position of the junction switch will be for movements to and from Skokie.

Movements over the junction switch and crossover are governed by high home signals for normal direction of traffic and dwarf signals for reverse direction. All high signals are approach clearing and all dwarf signals are cleared by push buttons located in box at the signals.

The speed between home signals must not exceed 20 MPH.

Eastward approach signal 144 located 3000 feet west of home signal 142 on Weber line DOES NOT INDICATE A CLEAR ROUTE BETWEEN IT AND THE NEXT SIGNAL 142. Rules 601A, 601B, 601C, 601F, 601G, 603B and 662, Supplement D apply.

WHEN SIGNAL DOES NOT CLEAR WITH ROUTE PROPERLY LINED AND NO CONFLICTING TRAIN OR ENGINE MOVEMENT IS EVIDENT, TRAINMEN WILL GO TO THE BOX MARKED TIME RELEASE, which is located at the junction switch and use time release in accordance with instructions posted in the box, and after 2 minutes signal should clear. If the signal does not clear, trainmen will use telephone located in box at junction switch to call dispatcher through leverman at Mayfair interlocking tower for instructions.

OPERATION RIVER JCT. TO SKOKIE

Between River Junction and Skokie train movements will be made by and upon the authority of signal indications, or upon receiving permission of the Train Dispatcher through leverman at Mayfair. Rules 501A, 501B, 501C, 603B, Sup. D and Rules 509 and 509c.

It will not be necessary for trains between River Junction and Skokie to obtain clearance Form A as per Rule 83a.

Rule S83 will not apply between River Junction and Skokie.

EXTRA TRAINS WILL OBSERVE RULE S97.

Eastward Signal 506—2500 feet west of Skokie station.

DOES NOT INDICATE A CLEAR ROUTE BETWEEN IT AND THE NEXT SIGNAL No. 504.

Eastward Signal 504—500 feet east of Skokie station.

**To clear signal WESTWARD MOVEMENTS must
pass over and clear Oakton Road BEFORE MAKING
RETURN EASTWARD MOVEMENT**

Eastward Signal 502—100 feet east of Lincolnwood station.

Westward Signal 503—600 feet west of Westward home signal at River Junction.

Governs to opposing home signal 504 at Skokie.

WESTWARD TRAINS will approach the end of westward automatic block located 500 feet east of Skokle, prepared to STOP.

ONE SWITCH INDICATOR at east end of the North Shore transfer switch and at the Wisconsin Lime and Cement Company switch to indicate approach of trains in **EITHER DIRECTION** between River Junction and Signal 504 at Skokie.

Movements clearing the main line and closing switch at either of the above locations must obtain permission by telephone before again entering main track.

EASTWARD TRAINS standing at **SKOKIE STATION** must **OBSERVE CROSSING SIGNALS** at **OAKTON ROAD** AND **EASTWARD TRAINS** standing at **LINCOLNWOOD** must **OBSERVE CROSSING SIGNALS** at **PRATT AVENUE**. IF NOT OPERATING a member of the crew must **OPERATE THE PUSH BUTTON** located in box at east end of platform or station. If this fails to start the signals the trains must be flagged over the crossings.

Telephones on signals and switches mentioned above connect with Mayfair. There is no crossing protection at Dempster Street Crossing one mile west of Skokie, Church St. crossing one and one-half miles west of Skokie, Glenview Road two and one-fourth miles east of Northfield, Lake Ave. two miles east of Northfield and Dundee Road three-fourths mile east of Valley on Sub-division 1a and all trains must come to a stop before passing these crossings and movement over same must be preceded by member of crew acting as flagman.

Between Chase and Butler, trains will be governed by Milwaukee District Terminal Time Table.

Eastward trains from Seeger for Proviso, before entering upon the main line at Norma, will obtain permission to do so from leverman at Deval by use of telephone located at cross-over switches at Norma.

Train or light engine movements Chase Yard Eastward to St. Francis via the single track wye must secure permission from leverman at Chase Tower before entering upon the Eastward main track on Subdivision 1-b. This permission to be procured over the telephone located at the wye switch. Trains from Subdivision 1-b entering the single track wye must also procure permission from leverman at Chase before movement is started onto the wye.

All trains will approach the cross-over switches at Norma under full control, expecting to find trains crossing over at that point.

C. M. St. P. & P. trains will operate between Shermer and Bryn Mawr and will be governed by C. & N. W. Wisconsin Division Time Table, Rules and Regulations.

Remote controlled interlocking plant at Shermer is controlled from C. M. St. P. & P. Tower "A20" at Techny.

Remote controlled interlocking plant at Bryn Mawr is controlled from C. M. St. P. & P. Tower "B17" at Bensenville.

No. 296 will leave Butler daily except Sunday.

No. 288 will leave St. Francis Tower daily except Sunday.

ADDITIONAL SPEED RESTRICTIONS

1. Trains of ordinary passenger equipment handled by Diesel power and trains of streamliner equipment handled by steam power must observe speed restrictions which govern "Other Passenger Trains."

2. Streamliner type trains and Gas or Diesel Electric Motor trains and Engines must not run over inundated tracks if water is more than three inches above top of rail and when operating through water must not exceed speed of five miles an hour. Be governed by Rules 101 and 708.

3. Diesel power moving light must not exceed fifty (50) miles per hour.

4. The speed of a train moving over a cross-over, turn-out from main track to siding or to diverging route at a junction, must not exceed ten (10) miles per hour, except as provided for in the foregoing speed restrictions.

4-a. C. M. St. P. & P. Ry. trains may run 20 miles per hour through turn-out at Shermer.

5. A train moving against the current of traffic in two or more track district must not exceed twenty (20) miles per hour at any point, and must not exceed ten (10) miles per hour through turn-outs and over dangerous highway crossings, including crossings equipped with automatic signal protection or within limits of any city and will not exceed ten (10) miles per hour approaching the terminals between which the reverse movement is being made. This rule does not apply to trains operating in either direction on track No. 2 between Wood St. and Barrington, or on track No. 2 between Deering and Wilmette.

6. Unless otherwise instructed steam wrecking outfits must not exceed a speed of thirty-five (35) miles per hour.

7. Empty coach trains in back up movement will observe all speed restrictions, but in no case will they exceed a speed of 40 miles per hour, and, in addition, such movements must not exceed speed of ten (10) miles per hour in passing over street or highway crossings at grade, being prepared to stop, if necessary, to avoid accident.

When back up movements are made to any point on the Wisconsin Division, west of Division Street, two men will be on the rear of these trains.

8. Trains handling either U. S. Government scale test cars, C. & N. W. scale test cars, or scale test cars of other railroads must not exceed a speed of thirty (30) miles an hour on Main Lines.

9. When Class J, JA, JS or Z Engines are used on passenger trains the speed of such trains must not exceed maximum speed as indicated in time table speed restrictions for freight trains.

10. Between the hours of 6:30 p. m. and 9:00 a. m., and 12:01 p. m. and 1:30 p. m. daily, when no gateman is on duty, all Switching Movements over Baldwin St. crossing east of the station, and at Station Street crossing west of the station at Sharon must be preceded by a member of train crew.

11. Circus trains and Carnival trains on main line districts will not exceed 35 miles per hour on straight track, and 25 miles per hour on curves. On branch line districts such trains will not exceed 25 miles per hour on straight track and 20 miles per hour on curves. Speed restrictions requiring less than the above speed must be observed.

12. Westward movements on Track No. 2 over spring switch east end of Barrington Coach Yard must not exceed 12 miles per hour.

13. Class E engine must not exceed a speed of 75 miles per hour at any point regardless of the type of train such engine is handling.

The above instructions will also apply when Class E engine is doubleheaded with diesel locomotive.

14. Trains handling ore cars loaded with ore will not exceed 25 miles per hour. Trains handling ore cars loaded with commodities other than ore, including company coal will not exceed 30 miles per hour. Trains handling empty ore cars will not exceed 30 miles per hour.

"General Rules Governing Employees of the Operating Department dated December 1st, 1929 and Supplement 'D' dated June 15th, 1935, in connection therewith, are issued in book form. Every employe whose duties are in any way prescribed by these rules, must always have a copy of them at hand when on duty."

SPECIAL RULES

On the road, at stations, in yards and on industrial tracks, there are buildings, structures, station platform canopies, mail cranes, dividing or between line fences which are located between tracks, bridge girders and other obstructions which, owing to local conditions or requirements, do not give clearance to men on top of or side of cars or engines. Employees must familiarize themselves with these conditions in the districts in which they are employed and where they exist must not extend any part of their bodies out from engines or cars, or attempt to alight therefrom.

New employes must exercise great care in this respect.

Standard 1. Clocks showing Central Standard time are located at Chicago Time Train Dispatchers' office; Telegraph offices; So. Janesville, Janesville, Harvard, Crystal Lake, Des Plaines, Fond du Lac, Milwaukee, Butler, National Ave., Racine, Kenosha, Waukegan, Canal Jct. Agent's office at North Avenue. Telegraph office, Yard Office and East End Yard 5 and Welfare Bldg. at Proviso, Yardmaster's office at 40th St., Caller's

office at Chicago Ave. (40th St. Round House) and Chase Roundhouse, Foremen's office at 3rd Ward Milwaukee and Butler, Engineers' washroom and lockers at South Janesville Harvard and 40th St. Round House.

Superior 2. EASTWARD trains are superior to WESTWARD trains of Direction the same class.

Rule S-72

Register 3. Passenger trains will register at Chicago, Milwaukee, Fond du Stations Lac, Harvard and Janesville.

Freight trains will register at Chicago Avenue, Harvard, South Janesville, National Avenue, Butler and Proviso.

Where not scheduled to stop, trains will register by register Blank R.

Trains on subdivision 2b will register at Harvard.

Trains on subdivision 1d will register at Kenosha.

Train order signal at Kenosha governs subdivision 2 trains only—Trains on subdivision 1d will be governed by Rule 83a.

Trains Unless otherwise provided, trains starting from initial division Obtain station on subdivisions 1, 1b, 2, 2b, 4 and 5 will obtain clearance Clearance form A at such stations.

Form A The above will permit of operators accepting train orders for such trains without display of train order signal.

Rule 83a does not apply at non-communicating stations or when communicating stations are closed, or at Wilmette, Winnetka, Wisconsin, Caledonia, Mayfair.

Passenger trains relaying out of Chicago Passenger Terminal or scheduled coach trains, starting from Chicago Passenger Terminal, may procure permission from train dispatcher by telephone to proceed without clearance form A.

Trains will obtain clearance form A at Milwaukee and Fond du Lac passenger stations.

Train Orders 4. Between Chicago and Waukegan and between Chicago Rule D97 a and Barrington extra freight and passenger trains will be operated without train orders. In all two or more track districts extra freight, empty passenger equipment, and express trains will be operated without train orders.

In Chicago Freight Terminal district, switch engines and transfer trains will run without train orders.

Bulletin 5. Bulletin boards for the posting of general orders and special Boards orders issued by the Superintendent are located as follows:

Conductors' room and trainmen's room, Chicago passenger station, trainmaster's office, Kedzie Avenue.

Yardmaster's offices, Erie Street, Grand Avenue, 40th Street (East and West end), Proviso (Yard 8 and east end yard 6), Cragin, Mayfair, Weber, North Avenue, Rose Hill, Waukegan, Kenosha, Racine, Milwaukee (Madison Yard, Chase Yard and Mitchell Yard) and North Fond du Lac.

Telegraph Office, National Avenue, Milwaukee, Butler, Harvard and South Janesville.

Engine house, Crawford Avenue Streamliner Ramp Chicago Shops, Sangamon Street, Waukegan, Kenosha, Chase, Milwaukee (enginemen's wash room Wisconsin Street depot), Third Ward engine house, Butler, North Fond du Lac, South Janesville, Proviso (Welfare building).

Orders will be numbered consecutively beginning with No. 1 on January 1st of each year. All members of train, Yard and engine crews must consult bulletin boards and familiarize themselves with instructions contained in these General Orders and Special Orders. Conductors, engineers and Yard Foremen must receipt for all General Orders in a book provided for that purpose at each Bulletin Board location, entering on this book the date and time order is read as well as signature.

Freight Train 6. Inspection: EASTWARD—Willow or Bain, Racine or Inspection Racine Jct., Waukegan, Harvard, Crystal Lake or Cary, Palatine, Caledonia, West Bend.

WESTWARD—Waukegan, Bain or Willow, Racine Jct., Barrington or Crystal Lake, Harvard, Rockfield or West Bend.

Operator Harvard will make running inspection of Nos. 591, 594, 576 and No. 578's trains when these trains are not required to stop.

Nos. 591, 594, 576 and 578 will inspect their trains at Harvard if required to stop.

Inspection may be made by reducing speed to ten miles per hour, and trainmen observing the train as it pulls by, preferably from the leeward side. Eastward inspection at Palatine will be made only by trains having sand or gravel picked up at Crystal Lake or Cary. Levermen at Tower KO, Upton, Willow, Racine Jct. and Lake Bluff, also operators at West Bend will, instead of trainmen, observe passing train for the entire length and will give necessary stop signal in case anything is found defective, and trainmen and enginemen must be on lookout for signals from these levermen. Trains in both directions will not exceed thirty (30) miles per hour passing Upton, to enable levermen to make running inspection of train. In the absence of levermen at Tower KO, Upton, Bain, Willow, Racine Jct. or Lake Bluff, or operator at West Bend, enginemen must bring train to full stop and trainmen must then make inspection. Trains of sixty-five (65) cars or less will not stop at Rockfield or West Bend for inspection.

Crews on eastbound freight trains passing through Butler destined to Proviso will inspect their train at Butler, Mitchell Yard or St. Francis.

Manual 7. Rules 302A to 373 govern between Caledonia and Harvard Block between the hours of 8:00 a. m. and 8:45 p. m.

A train moving under Permissive Train Order or Permissive Form C may follow the next preceding train not less than ten minutes.

Time 8. Between Bain and Kenosha, Skokie and Valley, continuously, and between Caledonia and Harvard between 8:45 p. m. and 8:00 a. m., rules 380 and 382 govern and trains will be spaced ten minutes apart except that a freight train must not follow a passenger train within fifteen minutes.

Automatic 9. Chicago to Tower NW, Mayfair to Skokie, Valley to Block Chase, Tower KO to Lake Bluff (Subdiv. 1c), Chicago to Janesville, Proviso to Valley, National Avenue to Wisconsin via Belton and Tower BJ.

Main 10. Suburban or local passenger trains must not occupy main Track at track at initial point in advance of their scheduled leaving time Terminals longer than actually necessary to load passengers and baggage, and in no case to exceed 5 minutes and then not without protecting by flagging; and in addition thereto, when communication can be had and trains of same class are overdue, authority must be received for such movement. Extra precautions must be taken in foggy or stormy weather.

Trains having preference to station platforms between Waukegan and Chicago and between Crystal Lake and Chicago:

Preference 11. From 12:00 o'clock night until 12:00 o'clock noon, as to Platforms between trains stopping locally, eastward trains will have preference to station platforms.

From 12:00 o'clock noon until 12:00 o'clock night, as between trains stopping locally, westward trains will have preference to station platforms.

Whistling 12. Enginemen operating Diesel Streamliner trains when Streamliner sounding regulation crossing whistle will begin sufficiently in advance of the whistle location. Whistle must be sounding while engine is approaching and passing over the crossing.

Lake Bluff 13. There is an opening in the intertrack fence between the two passenger main lines in front of Lake Bluff Station to permit of passengers and pedestrians passing from one platform to the other. You are cautioned to see to it that Rule D-107c is fully complied with when approaching this point.

Crystal Lake 14. Eastward trains are cautioned to be on the look out for trains crossing over at Crystal Lake Jct. to or from Galena Division.

Ordinances 15. No Railroad Company shall cause or allow the whistle of any Locomotive Engine to be sounded within the City of Chicago, City of Evanston, Wilmette, Glencoe, Highland Park, Highwood, Lake Forest, Zion, Waukegan, South Milwaukee, Des Plaines, Park Ridge-Arlington Heights, Palatine, Barrington, Fox River Grove, Cary and Janesville, and between Oklahoma Avenue and Kinnickinnic River bridge, Milwaukee, except necessary brake signals, and such as may be absolutely necessary to prevent injury to persons or damage to property. The above provisions will not apply to trains operated with Diesel power through the Village of Glencoe between the hours of 7:00 a. m. and 10:00 p. m.

North 16. Westward trains will sound crossing whistle for 22nd St. crossing Chicago east of station. Eastward trains will sound crossing whistle for 2nd St. crossing just west of station.

In accordance with above no crossing whistles are to be sounded between Chicago and Great Lakes or Chicago and first crossing west of Seeger or between first crossing west of Valley and Tower KO, but trains in both directions will whistle for Old Elm and Old Mill road crossings, the 3rd and 4th crossings east of Tower KO.

The following highway crossings on Subdivision No. 4A, at which the above rule applies, are within the city limits of Evanston; Dodge St., Lake St., Greenwood Blvd., Dempster St., Greenleaf St., Main St. and Oakton Ave.

16. Enginemen should immediately sound whistle signal in accordance with Rule 14-l or 14-p, depending on situation, when they observe persons or vehicles approaching a crossing or in close proximity to a crossing under conditions which would indicate that such persons or the occupants of such vehicles apparently are not aware of the approach of the train; also during stormy or foggy weather, or at any other time, when the view of crossing is obstructed. The same procedure should be followed in the event of such conditions existing at other than established crossings. At all times, when trains pass at or near crossings, the regular crossing whistle signals (Rule 14-l) should be sounded, even though enginemen are not aware of the approach of, or close proximity to the crossing of persons or vehicles.

Whistling at 17. Eastward trains will not whistle for Water Street, the first West Bend highway east of station, and westward trains will not whistle for Division Street, the first highway west of station.

Westward trains will sound station whistle just before passing over Milwaukee River bridge, and this whistle will also serve as the crossing whistle for Water Street.

Ringling Bell 17. The engine bell shall be rung continuously while running within above limits, except between stations on elevated tracks, or when approaching, standing, leaving or passing Irving Park Station, and will not be rung between Wilmette Interlocking plant and Rogers Park between the hours of ten (10:00) p. m. and six forty-five (6:45) a. m., but will be rung during stormy weather, as a warning to men working on tracks.

18. Explanation of Characters:

S—Regular Stop.

F—Stop to receive or discharge revenue passengers.

C—Stop to receive or discharge revenue Chicago passengers.

D—Stop to discharge revenue passengers.

Sprinkling 19. Conductors will see that Rule 731 is observed and that Hogs record is kept on wheel report showing stations at which each car Rule 731 of hogs is sprinkled and condition of hogs when taken and left. Hog sprinkling devices are located at Bain—westward track, Rawson—westward track, Crystal Lake—east of coal shed, Norma—eastward pen stock, So. Janesville—near yard office.

20. Cudahy. No engine larger than an M2 can enter the George J. Meyer plant.

Emergency 21. Enginemen operating engines equipped with either Red Headlights oscillating or non-oscillating emergency headlights will be governed by the following instructions:

In every case where the air brakes are applied from any cause other than normal operation by the engineman, or when the engineman finds it necessary to stop his train, due to some defect or under circumstances which might cause derailment thereby fouling the adjacent main track, engineman will immediately turn on the red emergency light, and when this is done, enginemen on approaching trains on adjacent tracks will take notice and immediately bring their train to a stop, and proceed only after finding track clear. These instructions are applicable at all times, both day and night. This emergency headlight must not be used for any other purpose.

The operation and use of this device will not in any way relieve enginemen or trainmen from complying with the last paragraph of Rule 102.

Rear Red 22. When a train equipped with manually operated rear Oscillating red oscillating light is moving under circumstances in which Lights it may be overtaken by another train, or comes to a stop, trainman acting as flagman will immediately start the operation of the red light.

The manually operated light is turned on by pushing down the plunger switch on the top of the light, and is turned off by pulling up the same plunger switch.

When a train is equipped with an automatic rear red oscillating light, which is connected to the rear train line hose, the light will automatically turn on when a reduction of fifteen or more pounds is made in brake pipe pressure and will continue to operate until turned off. When the brake pipe pressure is restored to normal the light can be turned off by pushing the small button on the right side of the light, which releases the stick relay. The automatic light can also be operated manually; to turn on the light push down the plunger switch on the top of the light; to extinguish the light pull up the plunger switch and push the small button on the right side of the light.

Enginemen in making stops with less than a fifteen pound reduction will upon completion of the stop make further reduction to attain a fifteen pound reduction.

Enginemen on approaching trains will take notice of rear red lights in operation and immediately reduce speed and be prepared to stop.

The operation and use of this device, either manually or automatically, will not in any way relieve trainmen from compliance with Rules 99 and 102.

TRACKS IN OPERATION

SINGLE TRACK.—Wisconsin to Tower NW, Kenosha to Bain, Harvard to Caledonia, Harvard to Belt Line switch South Janesville, Norma to Seeger, and River Jct. to Valley.

TWO TRACKS.—Clybourn to Deering, Wilmette Interlocking Plant to Wisconsin, Crawford Ave. to River Jct., Valley to Tower BA, River Jct. to Canal Interlocking Plant, Tower KO to Lake Bluff, Proviso to Valley, St. Francis to Chase, Clybourn to Wood Street, Barrington to Harvard, Belt Line Switch South Janesville to Janesville, National Avenue to Wisconsin via Belton and Tower BJ.

THREE TRACKS.—Deering to Wilmette Interlocking Plant, Wood Street to Barrington.

FOUR TRACKS.—Clinton Street Interlocking Plant to Clybourn.

MOVEMENT OF TRAINS ON RUNNING TRACKS

The tracks beginning with the west track (which is No. 1) are numbered consecutively to the east, except between St. Francis and Tower BA. Between these points Track No. 1 is westward and Track No. 2 eastward for Trains to or from Sub. Div. No. 2, and Track No. 3 is westward and Track No. 4 eastward for Trains to or from Sub. Div. 1B.

Through the Lake and Clinton Street Interlocking Plants and between Mayfair and Kostner Avenue, trains will move on signal indications.

39 Movements may be made on any track with the current of traffic when necessary.

Between Deering and Wilmette, Wood St. and Kostner Avenue, movements may be made against the current of traffic on authority of the signalmen, in writing, on revised Form 154, stating that opposing trains are being held. Before such movements are authorized, Signalmen will procure Instructions from Train Dispatcher and then make record on Form 491 revised, after securing block from station, in advance.

When a train desires to leave an industry or side track which is located between two of the stations mentioned and move against the current of traffic, permission must be secured over the telephone from Levermen, who will grant same, after securing permission from Train Dispatcher and will then make a record on Form 491 revised, and arrange for a block in advance.

Against the current of traffic movements, between Division Street and Clybourn, Clybourn and Wood Street and Clybourn and Deering Interlocking Plants, trains will move on signal indications. Signalman will obtain positive block from the next station in advance before clearing signals and make proper record on Form 491 revised.

Between Canal Interlocking and Central St. Station, movements may be made against current of traffic, on track No. 3, on signal indications. Before giving Proceed signal indications for such movements signalmen at Canal Interlocking will procure block from Signalman at Wilmette Interlocking and make record on Form 491 revised.

Conductors of yard engines having industrial work to do on tracks 1 and 3 between Wood Street and Kostner Avenue Interlocking plants must confer with signalman of respective districts regarding various movements to be made, or main tracks to be used. Local telephones connected with signalmen at Wood Street and Kostner Avenue Interlocking plants are located in cabin at Hettler's lead switch and on post 200 feet east of signal bridge 705, at Avondale Station just north of bay window, at signal Bridge 702, 330 feet west of Maplewood and on post 20 feet west of Crawford Avenue.

The district over which signalman at Wood Street has jurisdiction is Track 1 from Wood Street to Public Service Company's track at Maplewood, and Track 3 from Wood Street to east end of Avondale Yard. The district over which signalman at Kostner Avenue has jurisdiction is track No. 1 from Kostner Avenue to Public Service Company's track at Maplewood, and track No. 3 from Kostner Avenue to west end of Avondale Yard.

KINZIE STREET AND DIVISION STREET

Between Kinzie Street River Bridge and Grand Avenue single track will be operated. All Westward movements will be made on authority received by telephone from switch tender at Grand Avenue, except between hours of 11:00 p. m. and 7:00 a. m., and the entire day on Sundays and holidays when no Switch Tender is on duty at Grand Ave., westward train and engine movements will be made on signal indication received at Wells Street, and such movements will be made at restricted speed.

All Eastward movements will be made on authority received by telephone from Tower 1.

Between Grand Avenue and Division Street Interlocking Plant all tracks will be considered yard tracks, and all movements will be made at restricted speed.

CLINTON STREET AND DIVISION STREET

Trains in both directions will move on signal indications.

Eastward trains on tracks 2 and 3 will not parallel or pass each other over Division St. Interlocking plant or between that point and Lake St. Interlocking plant except in case train which is ahead on either track is delayed by stopping for signal or other cause. When necessary, Wisconsin Division trains must lay back and give Milwaukee Division trains the preference.

DIVISION STREET AND CLYBOURN

TRACK No. 1.—Westward movements sub-division 4.

TRACK No. 2.—Eastward movements sub-division 4.

TRACK No. 3.—Westward movements sub-division 1.

TRACK No. 4.—Eastward movements sub-division 1.

DEERING AND WILMETTE INTERLOCKING

Track No. 1—DAILY westward scheduled and unscheduled movements.

Track No. 2—DAILY EXCEPT SATURDAYS westward scheduled and unscheduled movements, between 11:00 a. m. and 7:00 p. m., and between 10:00 p. m. and 1:00 a. m.

Eastward scheduled and unscheduled movements between 1:00 a. m. and 11:00 a. m., and between 7:00 p. m. and 10:00 p. m.

Track No. 2—SATURDAYS:

Westward scheduled and unscheduled movements between 11:00 a. m. and 7:00 p. m., and between 11:00 p. m. and 1:00 a. m.

Eastward scheduled and unscheduled movements between 1:00 a. m. and 11:00 a. m., and between 7:00 p. m. and 11:00 p. m.

Track No. 3—DAILY: Eastward scheduled and unscheduled movements.

No train or engine will enter upon track No. 2 at or use the cross-overs at Diversey Street north of Deering bridge or at Rose Hill Tower without first obtaining permission from the Train Dispatcher.

BETWEEN CANAL AND RIVER JCT.

Movement against current of traffic may be made only under Flag Protection and at restricted speed.

WOOD STREET AND KOSTNER AVE.

TRACK No. 1.—Westward scheduled and unscheduled movements.

TRACK No. 2.—Westward scheduled and unscheduled movements between 9:00 a. m. and 7:15 p. m. and between 8:00 p. m. and 3:00 a. m.

Eastward scheduled and unscheduled movements between 3:00 a. m. and 9:00 a. m. and between 7:15 p. m. and 8:00 p. m.

TRACK No. 3.—Eastward scheduled and unscheduled movements.

KOSTNER AVE. AND BARRINGTON

TRACK No. 1.—Westward scheduled and unscheduled movements.

TRACK No. 2.—Scheduled and unscheduled movements in either direction on signal indications.

TRACK No. 3.—Eastward scheduled and unscheduled movements.

Cross-over movements are prohibited to Track No. 2 at intermediate points between Mayfair and Barrington, except when permission is obtained to do so between Mayfair and Deval through the signalmen at Deval or Mayfair interlocking plants and between Deval and Barrington through the signalman at Deval or the operator at Barrington Station. Telephone circuit has been installed between Mayfair and Barrington and telephones are installed opposite the center switches of each set of cross-overs to center track and connected into this circuit.

The cross-over switches on the center track of each set of cross-overs, are equipped with mechanical facing point locks having lever which will operate lock on both switches. The operation of this lock will set the automatic signals at STOP on center track in both directions but will not set the automatic signals at STOP on the outside tracks.

The throwing of the switch on the center track will set the automatic signals at STOP on the track toward which this switch leads.

Two switch indicators are located at the facing point lever stands; these indicators showing the approach of trains on the outside track. At the end of each cross-over located on the outside track, are two indicators so connected as to indicate the approach of trains separately from each direction on the center track.

BETWEEN NORMA AND SEEGER

The most westerly track will be used as single track and trains in both directions will operate in this district at restricted speed. Eastward trains are superior to westward trains. The most easterly track between Norma and Seeger will be used as a storage track.

BETWEEN JANESVILLE AND SOUTH JANESVILLE

Movements against the current of traffic must not be made until after communication with the train dispatcher, and in accordance with signal indications and rules governing.

Westward signals 877 and 879 on Westward track and Eastward signals 880 and 878 on Eastward track are "Stop-and-Proceed" signals and Rules 501AA, 501B Amended, 501C and 509(b) apply.

Eastward signal 876 on Eastward track and Westward signal 881 on Westward track are "Stop" signals and Rules 501A, 501B Amended, 501C, 501G Amended and 509(c) apply.

Westward signal 877-2 on Eastward track and Eastward signals 880-1, 878-1 and 876-1 on Westward track are "Stop" signals and Rules 501A, 501B Amended and 509 apply.

Between Madison Division Switch one-fifth mile west of Janesville, and South Janesville, the main tracks will be used jointly by Madison, Lake Shore and Wisconsin Division trains and Madison Division and Lake Shore Division trains will be governed by Wisconsin Division Time Table.

SPRING SWITCHES

Spring switches will be identified by a disc having black letters "SS" on a white background, mounted at right angles to the red target.

Rules 104f, 104g, 510a, 512a and 512b will be observed.

WAUKEGAN

On track No. 1 east end of coach yard to eastward main track, normal position is for main track.

BARRINGTON

On track No. 1 east end of coach yard to eastward main track, normal position is for main track.

West end westward passing track, normal position is for main track.

HARVARD

End of double track Subdivision No. 4.

Normal position to or from eastward track Subdivision No. 4.

At junction Sub-division No. 5 and Subdivision No. 2-B.

Normal position to or from Subdivision No. 2-B.

SOUTH

JANESVILLE

1. At the end of two track just East of Belt Line Switch, normal position is for westward movements.

2. At east end of yard track to main track, normal position is for main track.

JANESVILLE At end of two tracks, one-fifth (1/5) mile west of Janesville passenger station, normal position is for eastward movements.

RIVER JCT. At Afton line switch, normal position for Afton line.
Two spring switches at crossover east of junction switch, Normal for crossover movement either direction.

RESTRICTIONS ON OPERATION OF VARIOUS CLASSES OF ENGINES

Chicago Passenger Terminal.....	M4 Engines cannot enter passenger terminal.
Wells St. Viaducts, Chicago.....	J, JS, JA, H, E4 and J4 Engines cannot operate on tracks 11, 12, 13, 14, 15 and 16.
Clark St. Viaduct, Chicago.....	H, E4 and J4 Engines cannot pass under this viaduct.
Ground level tracks between Noble and Wells Sts.....	D, E, E1, E2, E4, H, J, JA, JS, J4, R1 and Z Engines cannot pass under this viaduct.
Chicago Ave. Round House.....	
Erle St. Coach Yard.....	
Grand Ave. Freight Yard.....	H, J4, JA, E2A and E2B Engines cannot be operated.
South of Monroe St. on Rockwell St. Line.....	

OPERATION OF CLASS H AND J-4 ENGINES

Class H and J-4 engines can operate between Proviso and Altoona via Valley, Willow, Chase, Belton, Lake Bluff, Racine, St. Francis, Milwaukee, Wisconsin, Butler, but must not operate over puzzle switches at Milwaukee depot while any other trains or engines are using same on an adjoining track.

The speed of trains being handled by Class H and J-4 engines must not in any case or at any time be in excess of that indicated in Wisconsin Division time table, except speed of Class J-4 engines is limited to 35 M.P.H.

The speed of Class H and J-4 engines must be restricted to ten (10) miles per hour when entering or leaving sidings, while moving on sidings, or on enginehouse and yard tracks.

Class H or J-4 engines must not be operated on any house track or industry track, and if necessary to do work on such tracks, a sufficient number of cars will be handled to avoid having the engine operate beyond the turnout.

Other tracks suitable for H and J-4 Engines on Sub. Div. 1b:

Straight track at Milwaukee Avenue,
Blodgett—West siding from east end of track to Deerfield Avenue, and the two team tracks east of the water tank.
South Upton—Team track.
Upton—"Wye," and siding except north end between crossover siding to main line and north switch.
Bain—West siding and "Wye" between main line and derail at KD track.
Rawson—West siding.
Layton Ave.—Siding.
Tracks Nos. 1 and 2 between St. Francis and Bay View interlocking plants.

All sidings and other tracks adjacent to the Main Line, between St. Francis Interlocking Tower and Tower BJ, and in addition the Mitchell Yard Tracks, the Engine House; Coal Shed; Water Station tracks at Butler, and the Yard tracks of the Main Yard at Butler which are now in operation for Class "J" Engines.

SUBDIVISION 1 AND 2

Kenosha siding.
Cudahy Westward siding.
Eastward siding only as far as Clearing Point.
Waukegan and Racine Jct. siding only as far as Clearing Points.
H and J-4 Engines may get coal at Kenosha and Waukegan.

CHICAGO PASSENGER TERMINAL

Rules governing train operation in the Chicago Passenger Terminal district East of Bridge D (near Halsted St.) on the Galena Div. and of Bridge K (near Grand Ave.) on the Wisconsin Div.

1. Trains and engines (in either direction) must use not less than three minutes' time in this district.

2. Dwarf signals governing westward movements displaying a marker consisting of TWO white stars located directly above the signal light are located as follows on Lake Street Interlocking Plant, Chicago Passenger Station:

- The first dwarf signal governing westward movements from each of the sixteen train shed tracks.
- The second dwarf signal governing westward movements from Track No. 16.
- The dwarf signal governing westward movements from each of the two pockets on lead tracks 1 and 6.

CHICAGO PASSENGER TERMINAL—Continued 40

The dwarf signals governing westward movements over Lake Street Interlocking are now equipped with a rear view lunar white marker light displaying ONE star located on top of the signal case. This marker is illuminated only by action of the leverman when the signal is cleared.

The initial westward movement of any train or engine from the train shed tracks must not be started without a proceed indication on the dwarf signal marked with TWO stars, except that a train or engine with the west end west of one or more dwarf signals must not be started without a proceed indication on the first signal east of its west end on the track it occupies.

The initial westward movement of any train or engine from the pockets on lead tracks one and six must not be started without a proceed indication on the dwarf signal marked with TWO stars.

When enginemen or trainmen cannot observe starting signal indication because of engine or train being too far in advance of the starting signal, enginemen or trainmen may be governed by the rear view ONE lunar white star marker light.

When this ONE star marker is illuminated it indicates that the signal to which it is attached is cleared and that the leverman at Lake Street has a route lined up and enginemen or trainmen may proceed on this indication to the next signal.

3. On all trains being backed into terminal, the back-up man will use one long sound of communicating signal as an indication to the engineman to close throttle, to permit stop to be made by tailhose application of the brake.

4. The use of sand is prohibited anywhere on Lake and Clinton Street Interlocking Plants and on the sixteen (16) tracks in the train shed of the Chicago Passenger Station.

5. Train line steam pipes must not be blown out in the Terminal nor over Interlocking plants.

6. Incoming engines will apply dimmers at Bridge K on the Wisconsin Division and outgoing engines will shut off dimmers and use high power light after passing Bridge K.

7. When two out-going trains are placed on one track the most westerly train shall delay departure one minute beyond scheduled leaving time, to enable passengers to reach it.

8. No train or engine shall approach nearer than five feet to any bumping post on tracks 1 to 16.

9. On out-going suburban trains, trainmen will station themselves at openings and frequently announce the destination and time of departure of their train; a trainman must be at the rear end.

Trainmen on through passenger trains will call "ALL ABOARD" in coaches on trains leaving Chicago Passenger Station, shortly before leaving time.

10. On through trains arriving at Chicago Passenger Station, rear Trainman will immediately go to the rear of the train, cut in the back-up hose, make test to determine if air is working properly, and remain at the rear end of the train until released by back-up man, except as otherwise herein provided.

On streamliners and other trains with blind ends, rear Trainman will remain at the back-up valve until released by the back-up man, and will remain at the train until train actually starts backing up in charge of the back-up man, or until released by another back-up man.

When switching is to be done on any train, before it backs out, rear Trainman will remain on duty and protect remaining portion until released by the back-up man. When train is to be handled out of the passenger station by switch engine, thereby releasing road engine to move light, the rear Trainman will not be released until the road engine has been cut off from the train.

On suburban trains where Trainmen back out their trains, the rear Trainman may not go to the rear of train until he has assisted passengers or unloaded baggage, etc.; but in either case will be in close proximity to the Conductor's valve, and by its use will stop the train if for any reason it should start backing before he is on rear of train. This exception also applies to other trains with but one Brakeman.

Back-up movements of trains out of Chicago Passenger Station must not be started until the Engineman gets the regulation three whistle back-up signal, followed by a hand or lantern signal from the Trainman or back-up man.

When such hand or lantern signals cannot be seen by the Engineman on account of steam and fog in the train shed, the following will govern:

(a) On through trains, when instructed by the Back-up Supervisor, both Brakemen will remain with the train until it is backed out, to relay signals to the Engineman.

(b) On suburban trains one member of the crew, in addition to the man who is to back the train out, will remain on duty at their trains to assist in relaying signals to the Engineman.

The above instructions do not relieve employees from making all the required air brake tests, including the standing back-up hose test.

OVERHEAD OBSTRUCTIONS

Maximum width and height of loaded cars that will pass in safety over Wisconsin Division.

OVERHEAD OBSTRUCTIONS—Continued

No load must exceed 11' 6" in width regardless of height. Trainmen and Yardmen must know, and will be held responsible, that cars do not exceed above width and height before placing them in trains or hauling them over the division.

On account of reduced clearance at existing viaducts and buildings over Wells Street Yard, all employees are prohibited from riding or being upon the tops of cars while same are in motion, at any point in the district between Sangamon St. Tower on the west and Michigan Avenue on the east, and in depression through Winnetka and Hubbard Woods.

CROSSINGS, DRAWBRIDGES AND JUNCTIONS

Crossings, drawbridges and junctions at which Rules 601A to 672, amended, will be observed

C. & N. W.	Lake Street, Chicago.
C. & N. W.	Clinton Street, Chicago.
C. & N. W.	Tower No. 1, Wells St. Yard.
C. & N. W.	Sangamon Street, Chicago.
C. & N. W.	Carpenter Street, Chicago.
C. & N. W.	Division Street, Chicago.
C. M. St. P. & P.	Clybourn.
Drawbridge C. & N. W.	Deering.
C. & N. W.	Main Street.
C. & N. W.	Canal Interlocking Plant.
C. & N. W.	Wilmette.
C. & N. W.	Lake Bluff.
C. M. St. P. & P.	Racine Junction.
C. & N. W.	St. Francis Tower.
C. M. St. P. & P. and C. & N. W.	Tower BA.
Drawbridge	Kinnickinnic River.
C. & N. W.	National Avenue.
Drawbridge	Milwaukee River.
C. & N. W.	Wiscona.
C. & N. W.	Tower NW.
C. & N. W.	River Jct.
C. & N. W. and C. N. S. & M.	Tower KO.
C. N. S. & M.	One-half mile east of Upton.
E. J. & E.	Upton.

C. N. S. & M.	0.98 mile west of Rawson.
C. & N. W.	St. Francis Tower.
C. & N. W.	Chase.
C. & N. W.	Wood Street.
C. & N. W.	Kostner Avenue.
C. M. St. P. & P. and C. & N. W.	Mayfair.
Soo Line and C. & N. W.	Deval.
E. J. & E.	Barrington.
C. & N. W.	Barrington.
C. & N. W.	West end of Harvard Yard.
C. M. St. P. & P.	Clinton Junction.
C. N. S. & M.	One mile west of Kenosha.
C. M. St. P. & P.	Cragin.
C. M. St. P. & P. and C. & N. W.	Grayland.

In addition to observing Rules 601A to 672, amended, the following instructions will govern at the interlockings shown below:

C. & N. W.	Seeger.
C. & N. W.	1/2 mile east of Barrington.
C. & N. W. and C. M. St. P. & P.	1/5 mile west of Janesville.
C. M. St. P. & P.	Shermer.
C. M. St. P. & P.	Bryn Mawr.
C. & N. W.	Galena Divn. Wye., Proviso.

CROSSINGS, DRAWBRIDGES AND JUNCTIONS—Continued

When a train or engine has been stopped by a Stop-signal at the above interlockings, a trainman or engineman must at once communicate with the leverman by telephone. The instructions must be repeated to insure correct understanding.

When given oral permission to pass a Stop-signal a movement must not be made over a dual control switch until it has been operated by hand in accordance with instructions posted in the telephone box at the signal.

When given oral permission to pass a Stop-signal which governs over a spring switch in the facing direction, trainman or engineman must examine the spring switch points to know that they are fully closed before moving over the switch.

The lower arm of the westward home signal to the interlocking plant, one-fifth mile west of Janesville, governs to the Madison Division and it is also the beginning of Madison Division automatic block signals. When the signal indicates: Stop, Rule 601A, amended, no train or engine shall move onto the Madison Division without communicating with the train dispatcher in accordance with Rule 509c, in addition to securing permission from the leverman at C. M. St. P. & P. Ry. passenger station, to move over dual control switch.

When westward home signal for the interlocking plant 1/5 mile west of Janesville displays the indication to proceed with the color light dwarf signal east of Jackson Street displaying the "Stop" indications if the westward and eastward tracks between home signal and color light dwarf signals are clear with no westward train or engine movements being made on the opposite main track, train or engine may pass dwarf color light signal indicating "Stop" under flag protection.

All trains and engines will approach this interlocking plant at restricted speed. If clear indication is given the engine or leading car must not exceed (15) miles per hour passing the home signal.

In addition to observing Rules 601A to 672, amended, all trains will approach the signal-protected railroad crossings shown below at restricted speed. If clear indication is given, the engine or leading car must not exceed the speed shown below between home signals:

Railroad	Location	Restricted Speed
C. M. St. P. & P.	Lower Belt South Janesville.	10 m. p. h.

Rail motor cars, gas or oil-electric, when operated without a trailer car attached, must come to a full stop at the home signal of the signal-protected crossings indicated above regardless of whether the signal is clear or not. If the signal indicates "PROCEED," the car may proceed after the stop is made; otherwise the release apparatus at the crossing must be operated in accordance with the second paragraph of Rule 672, amended.

CROSSINGS, DRAWBRIDGES AND JUNCTIONS AT WHICH RULE 98 WILL BE OBSERVED STOP BOARDS

Crossing, Drawbridge or Junction	Location
Drawbridge	Canal and Kinzie Streets.
C. M. St. P. & P.	Canal and Kinzie Streets.

WAUKEGAN, ILL.—Wire Mill Connection

Movements to and from Wire Mill are made through crossover from industry lead to E. J. & E. tracks and through turnout switch to Wire Mill. Switches are equipped with pipe connected derails and indicators. Rules 512 and 512A will govern.

TRAIN DISPATCHERS' TELEPHONES

Section house C. N. S. & M. connection, Highwood.

At Yard office at east end of eastbound elevated yard at Kenosha.

Two miles west of Racine, end of 3rd track.

Crossover at Seeger.

East Platform, Arlington Park.

E. J. & E. Tower, Barrington.

West end eastward passing track, Barrington.

Wisconsin Lime Switch, east of Crystal Lake.

Crystal Lake Jct. at Tower CS.

Cudahy, at Crossover.

County Line Section Car House.

Berryville Section Car House.

Following Non-Communicating Stations also have Train Dispatchers' Telephones:

Ravenswood-Wilson Ave., Main St., Evanston, Hubbard Woods, Glencoe, Highwood, Great Lakes, North Chicago, at Crossover east of North Chicago, Dunes Park, Zion, Winthrop Harbor, Cudahy, Granville, Barton, Clybourn, Kostner Ave., Norwood Park, Edison Park, Park Ridge, Mt. Prospect, Arlington Heights, Palatine, Ridgely, Hartland, Bain.

Caledonia to Harvard.....	1700	2925	3570		

Add 5% to rating of Class "JS" locomotive to obtain rating for "JA" locomotive.

The above ratings apply under ordinary conditions over maximum grade between the points named; additional tonnage will be handled whenever circumstances and grades will permit.

In addition to the rating above, the following rating between points indicated will govern with helper engine.

Class of Engine				District Between
Z	JS	J-4	H	
3720	4540	5640	6000	St. Francis-Muirdale
3100	3600	4700	5000	National Ave.-Cudahy
5705	6625	8650	9200	National Ave.-Layton Ave.

With trains of over forty (40) cars, exclusive of cabooses, double-heading is prohibited, except as hereinafter stated: Double-headers may be run in any district providing the rating of the largest engine handling the train is not exceeded. In case of an accident to an engine consolidation may be effected with another train and consolidated train brought into terminal as double-header if practicable.
