NX	90	Less Carload Service	106
BX	94	Rail Saving Runs	124

GENERAL INSTRUCTIONS

This book shows regular through and local train service with connections and classifications, a less-carload service directory with local loading orders and other freight service information for the guidance of all concerned. Necessary supplements, revisions or corrections to this book will be issued as required.

The times and trains shown are not guaranteed and are subject to change without notice. No track or running rights are conferred. Time shown is Eastern Standard.

When, in the opinion of the Division Superintendent, the volume of freight for any symbol train warrants operation of extras, they should so far as practicable, be operated in advance of the symbol train and be shown in reports by the prefix "Advance", "Second" or "Third" as the case may be. Changes in through or interline trains, or the make up thereof, shall not be made without authority from the Superintendent of Freight Transportation. Other service must not be permanently curtailed, added to or changed without the same authority. Day to day curtailments in local service may be made by division forces in the interest of economy, providing advertised service, where required, is fully protected and the Superintendent of Freight Transportation is advised.

Loaded cars cut out en route, account defects, should be repaired promptly and forwarded in first available train. Cars of livestock, fresh meat, fish or other perishables, explosives and other dangerous articles or Freight Forwarder Traffic cut out short of destination or junction must be reported by wire by the Division Superintendent to the Superintendent of Freight Transportation showing car initials and numbers, contents, originating point, destination and consignee. If necessary to transfer lading, instructions as outlined in Circular No. TD-52 or reissues will govern. Lading under refrigeration or heater service must be properly protected.

To gain new or retain existing business, it is necessary that expedited and dependable service be accorded. This means consistent on-time performance. Suggestions as to improvements in service are solicited.

EXPLANATION OF TRAIN SYMBOLS

Freight train symbols indicate, in a general way, the origin and destination of the freight handled in the train, or the initial and final terminal. Even numbers indicate east or northward trains, odd numbers west or southward.

Territorial Symbols are as follows:

FGB-2	Florida - Greenville - Boston
M - 6, M - 7	Maine
N - 1	New Haven
NE-1, NE-2	New England
P - 2	Portland
A	Hartford
B	Boston
C	Framingham
D	Waterbury
E	Bridgeport
E W	East Walpole
F	Fall River
G	Bay Ridge
H	Harlem River or Oak Point
J	Fitchburg
K	Brockton or South Braintree
L	Lowell
M	New London
N	New Haven or Cedar Hill
O	Maybrook
P	Providence
Q	Pittsfield
R	Danbury
S	Springfield
T	Taunton
U	New Bedford
W	Worcester
Y	Holyoke
Z	Hyannis
B X	Boston Division Extra
N X	New Haven Division Extra

CLASSIFICATION INSTRUCTIONS

Listing of stations under Major Classifications as shown on following pages is to indicate to yard forces the major points of concentration where cars receive final classifying for movement to destination, and direct the manner in which cars should be classified at gateways or concentration points to eliminate and save switching at intermediate terminals.

To conform with blocking instructions under the symbol trains cars should be switched for major classification points as listed, except that these classifications do not supersede those that are made at various terminals to meet local requirements.

Close attention must be given to switching of cars destined to common points with the B & M. If waybill shows routing to destination "Via NYNH&H, B&M Delivery," car will be switched in accordance with classification shown herein. If waybill shows routing via a B&M junction and road haul to destination via B&M, car will be switched as follows:

Via Worcester, B&M for Boston, Clinton, West Concord, Lowell, South Sudbury, Worcester.

Via Springfield, B&M for Easthampton, Fitchburg, Holyoke, Northampton, Springfield, Mass.

The following Boston & Maine stations are located in the Boston Switching Districts:

Boston	E. Cambridge	Mystic Wharf	Rutherford Ave.-
Cambridge	Everett	No. Cambridge	(Charlestown)
Charlestown	Hoosac Wharves	No. Somerville	Somerville
Chelsea	Medford	Revere	W. Cambridge

Cars for above stations when routed as shown below will be classified as follows:

Boston Classification (Via Shore Line)

NYNH&H

NYNH&H - Boston-B&M

NYNH&H - B&M Delivery

NYNH&H - Union Freight
-B&M

Boston B&M Classifications (Via Worcester & B&M)

NYNH&H - B&M

NYNH&H - Care B&M

NYNH&H - Worcester - B&M

Cars routed via Springfield for the above stations will be classified as Worcester because rates do not apply via Springfield.

Perishable and/or livestock for stations in Boston B&M switching district will be handled in accordance with waybill instructions.

In case routing instructions shown on the waybills are not clear and there is any doubt as to route cars should travel, they should be forwarded via Boston (Shore Line) in order to avoid delay to freight.

Cars for stations on or via the Central Vermont or Canadian National will be switched at Cedar Hill into "New London-CV classification" except that when billing routes via B&M, such cars will be switched into "White River classification."

Maybrook and Cedar Hill will classify cars for Boston, (via Shore Line) as shown in special classification.

Cedar Hill will classify cars for Maybrook as shown in Special Classification.

FLOAT SCHEDULES (BROOKLYN TERMINALS)

(Between Oak Point and Brooklyn Terminals)

BUSH TERMINAL	OPERATES AS REQUIRED *
BROOKLYN EASTERN DISTRICT TERMINAL	OPERATES AS REQUIRED *
NEW YORK DOCK	OPERATES AS REQUIRED *

* Arrival of Bush Terminal, B E D T, and New York Dock floats at Oak Point governed by prior consent of New Haven Boat Dispatcher based on ability of Oak Point to handle promptly.

NOTE: All Brooklyn Terminal floats handled by Brooklyn Terminal tugs and crews.

CLOSING HOURS FOR DIVERSION ORDERS FOR PERISHABLE FREIGHT

Diversion after daily freight house closings, and on Saturdays, Sundays and holidays depend on availability of waybills. If practicable, diversion order will be executed for a car actually moving in a train, but it is not guaranteed that such car will be switched out of the train or stopped short of original destination or off-line junction.

Diversions at stations shown below, when ordered not later than time indicated, will be executed if carrier is not prevented by conditions beyond its control. Cars for which orders are received after times shown will be given best practicable movement.

LESS CARLOAD SERVICE

This section is a complete Directory of LCL Service and Local Loading instructions covering car and motor truck operations to and from all LCL stations on the New Haven Railroad and connecting short lines. Instructions concerning loading to off line points will be issued direct to stations involved where necessary.

Authorized scheduled LCL cars shown must be operated regardless of quantity unless otherwise instructed by the General Superintendent of Transportation.

In addition to these regularly scheduled LCL cars, overhead cars other than intra-terminal should be loaded from house or private track to any open LCL station and under any of the following conditions:

- (a) When three tons are available.
- (b) When car is loaded to full visible capacity.
- (c) When car contains explosives or other dangerous articles as defined in Agent Campbell's Freight Tariff No. 10.

General tariff provisions permit the operation of intra-terminal ferry cars to and from shipper's or consignee's private sidetracks whenever there are two or more tons of freight. General tariff provisions also permit handling such freight by truck in lieu of car.
