SANTA FE SYSTEM FREIGHT TRAIN SCHEDULES AND INSTRUCTIONS

GENERAL INFORMATION

This manual contains (1) condensed through freight schedules, (2) general instructions applying to all trains, (3) blocking instructions for certain key terminals, (4) through freight train schedules, (5) local freight train schedules and (6) mileage tables. The through freight train schedule section contains all information about each train arranged as follows:

- | | |
|-------------------|--|
| (1) Symbol | (5) Classification (traffic to be moved) |
| (2) Schedule | (6) Blocking instructions |
| (3) Connection | (7) Special instructions |
| (4) Cut off times | |

Additions and corrections will be issued as necessary on supplementary sheets, which should be inserted in this manual. General Superintendent of Transportation must be advised promptly of any changes in local train schedules or local blocking practices which are shown herein so that corrections can be issued.

GENERAL INSTRUCTIONS

The following instructions are in effect throughout the system and apply to all trains. (Instructions applying to an individual train are shown on the schedule page of that train).

Perishable and Protective Service Cars must be loaded, billed and have all accessorial service completed by cut off time effective at the loading station in order to qualify for movement in a symbol train. Perishable and protective service cars should be kept together on head end of train handling, except, when train has two or more blocks, perishable should be handled in proper block.

Livestock should move on head end of trains except, when train has two or more blocks, livestock should be handled in proper block.

Empties moving on non-revenue waybills as defined in System Circular 210-M, Section III, Part B, which are referred to variously as "billed empties" or "special empties" are entitled to move in same trains with loaded cars.

Barstow Transload cars - originating Kansas City and Chicago should be moved from Argentine in not more than two trains per day which should be: (1) last section Train 53 and (2) Train 43 or 49.

Cut Off Times for each train are shown on schedule page. TOFC Cut Off Times apply to trailers delivered at ramp. Special Cut Off Times apply to perishable, livestock and TOFC received in a block on head or rear end of transfer when notice received in advance. In addition, cut off times for delivery to connecting lines at Kansas City and Chicago are shown below:

KANSAS CITY	Day 3	Day 4
CHICAGO *	Day 4	Day 5

SYMBOLLING INSTRUCTIONS

Train Symbol All trains handling loads or billed empties over more than one division will be given appropriate train symbol.

Section Symbol When more than one section of a schedule is operated, be governed by the following: Early sections will be given prefix "ADV" and, if more than one early section, "1 ADV", "2 ADV", etc. The section which protects "on time" departure may be given prefix "1" before train symbol. Additional sections will be given number prefix in order operated (2, 3, 4, etc.).

Special Section Symbols will be used to denote:

- " L " - train from Corwith which picks-up at Illinois Division junctions.
- "LA" - train from Corwith blocked for Southern California.
- "SF" - train from Corwith blocked for Northern California.
- " S " - train handling connection via NYC at Streator.
- " T " - train handling connection via TPW at Shopton.

Other Special Section Symbols Intermediate points originating a section of a train will use station telegraphic call letters as a prefix (i.e., BA-43 for Train 43 originated at Barstow).

Symbols for Unscheduled Trains For trains operating Intradivisionally, and solid trains of empties use four part symbol made up as follows:

1. Number (if more than one operated)
2. Originating station telegraph code letters,
3. "E" for eastward trains, "W" for westward trains, and
4. Letter day symbol.

Date Symbol Trains will be given letter date symbol of day train is DUE to leave the initial station shown in the schedule. Trains originated at an intermediate point will be given date symbol of day that schedule was due to leave initial station shown in the schedule.

Exceptions (Also shown on schedule page of trains involved).

Trains 37, 43, 533 from Argentine use one day earlier date symbol.

Trains SWG, GWS, Expediter use numerical date symbol to conform with WP and GN practice.

For terminals shown above, detailed blocking instructions have been prepared. The information is set forth in two ways: First, the blocks are described by station name and by station number. Second, station numbers are listed showing the block to which each is assigned. All blocking for stations beyond the next major terminal is shown. Blocking for stations intermediate to the next major terminal is included in "local block" since locally issued instructions govern handling. These instructions are prepared in a manner that they can be issued to and used by Yardmasters, Yard Clerks, Engine Foremen and other Yard Personnel.
