SERVICE IS OPERATED, IS SHOWN IN RED.

UNION PACIFIC RAILROAD
AND CONNECTIONS

This directory has been compiled to provide convenient information as to Union Pacific merchandise service available between principal cities; also, transit time from principal Union Pacific Transfers to various Union Pacific destinations.

All merchandise cars are scheduled to operate daily, Monday through Friday unless otherwise specified, (subject to change without notice). Transit time shown opposite stations indicates scheduled day, exclusive of loading day, merchandise is available for delivery or reforwarding. Merchandise arriving destination on Saturday or Sunday, normally will be handled Monday; however, some transfer points operate more than five days per week—North Platte, as an example, operates seven days per week.

For convenience in checking transit time, the following example is cited:—

When checking transit time to a point on the Union Pacific—Greeley, Colo., for instance—refer to index herein which shows "1" day service from North Platte to Greeley. Then by reference to Section "B" it will be noted North Platte receives scheduled through cars from numerous eastern origins, and opposite each origin is shown transit time, in days, to North Platte, which transit time added to that from North Platte to Greeley, indicates the scheduled through time.

Should a shipment originate at a New England point, for example, it is assumed information can readily be secured locally, by reference to origin line directory, as to desirable routing from origin to some major intermediate transfer or assembly point which regularly loads direct cars to North Platte, or to some other major transfer, such as shown in Sections "A" and "B".

Utilization of direct routes, via which scheduled through cars operate, naturally serves to avoid unnecessary transfers and expedites through movement; hence, shippers are urged to favorably consider such scheduled through cars when specifying routing.
