Join the Freight Car Revolution!

Canadian Pacific is continually developing better freight cars . . . more specialized freight cars. Cars that carry bigger loads, make loading and unloading faster and easier—and thereby cut your shipping costs.

And there's your area of decision—the area in which our Freight Traffic Representative can help.

How are you going to take full advantage of Canadian Pacific's freight car revolution? The answer could demand a big change in your distribution set-up. But the possibilities for savings, market development and profits make finding an answer worthwhile.

There are many Canadian Pacific freight cars which can provide lower costs and improved service. They all aid fast, dependable, economical movement of freight. They can all help to reduce final distribution costs dramatically. If this is the kind of decision you're facing, we're at your service. Just call the Canadian Pacific freight traffic representative in your area.
