"TRAVELOGUE" of N&W Box Car No. 44222

Loaded with furniture from Southwestern Virginia, its destination a point in New Jersey, the Norfolk and Western's merchandise freight car No. 44222 left the N. & W. system at Hagerstown, Maryland. It didn't return until more than 19 months later — 582 days to be exact!

During this time No. 44222 moved over 45 different railroads and covered 33,150 miles, literally spanning the U. S. from coast to coast and from border to border . . . even entering Mexico.

Most box cars get around, but the wanderings of No. 44222 are unusually interesting in view of the territory covered and the minor repairs necessary while it was en route . . . which included one new journal bearing and air hose, cleaning the air brakes and repacking journal boxes.

When this sturdy traveler finally returned to the N. & W., only routine maintenance was required. Now the wanderer is off again, dependably carrying varied products of the nation to markets everywhere.

Get that **LOAD** off your mind

Put it on the N&W

If you have a shipping problem of any kind, why carry the load by yourself when there's competent assistance nearby?

A Norfolk and Western Sales and Service representative in your area will be glad to share your shipping worries. Call on him, and the two of you can dispose of annoying traffic problems with surprising ease.

The **DEPENDABLE** advice which our men provide is the first step toward **DEPENDABLE** N. & W. freight transportation . . . made possible by experienced railroaders, modern equipment and facilities, streamlined schedules and efficient operating procedures.

Our Sales and Service representatives are located in 40 key cities of the U. S. They welcome the opportunity to serve you.

Handles preferentially cars moving via Hagerstown-WM.

@ Handles perishables only from N&W 77.

Handles non-perishables from N&W 77.

(A) Traffic other than for Portsmouth proper and beyond handled as tonnage filler.

(B) Does not set off at Bluefield.

(C) Perishables only. Other freight arrives Chillicothe in local around Noon.

On their daily runs between Petersburg, Virginia, and Columbus-Cincinnati, Ohio, the Norfolk and Western's "Hot Shots" — freight trains 77 and 78 — rocket over the rails at near passenger train speeds.

They move in and out of terminals with precision smoothness, keeping carload freight on-time at all points. This outstanding freight service saves

shippers as much as a full day on delivery at important points of the Southeast, Middle West and West.

The "Hot Shots" are one of many progressive freight transportation services offered by this railroad. Together they are prompting shippers in ever increasing numbers to mark their freight "Via N. & W."

 # Cars arrive Shenandoah in N&W 96 and moved to Elkton by Local.

toward better shipping if you have not already taken it...

Your "first step" toward better shipping is to schedule a movement of your freight over the Norfolk and Western.

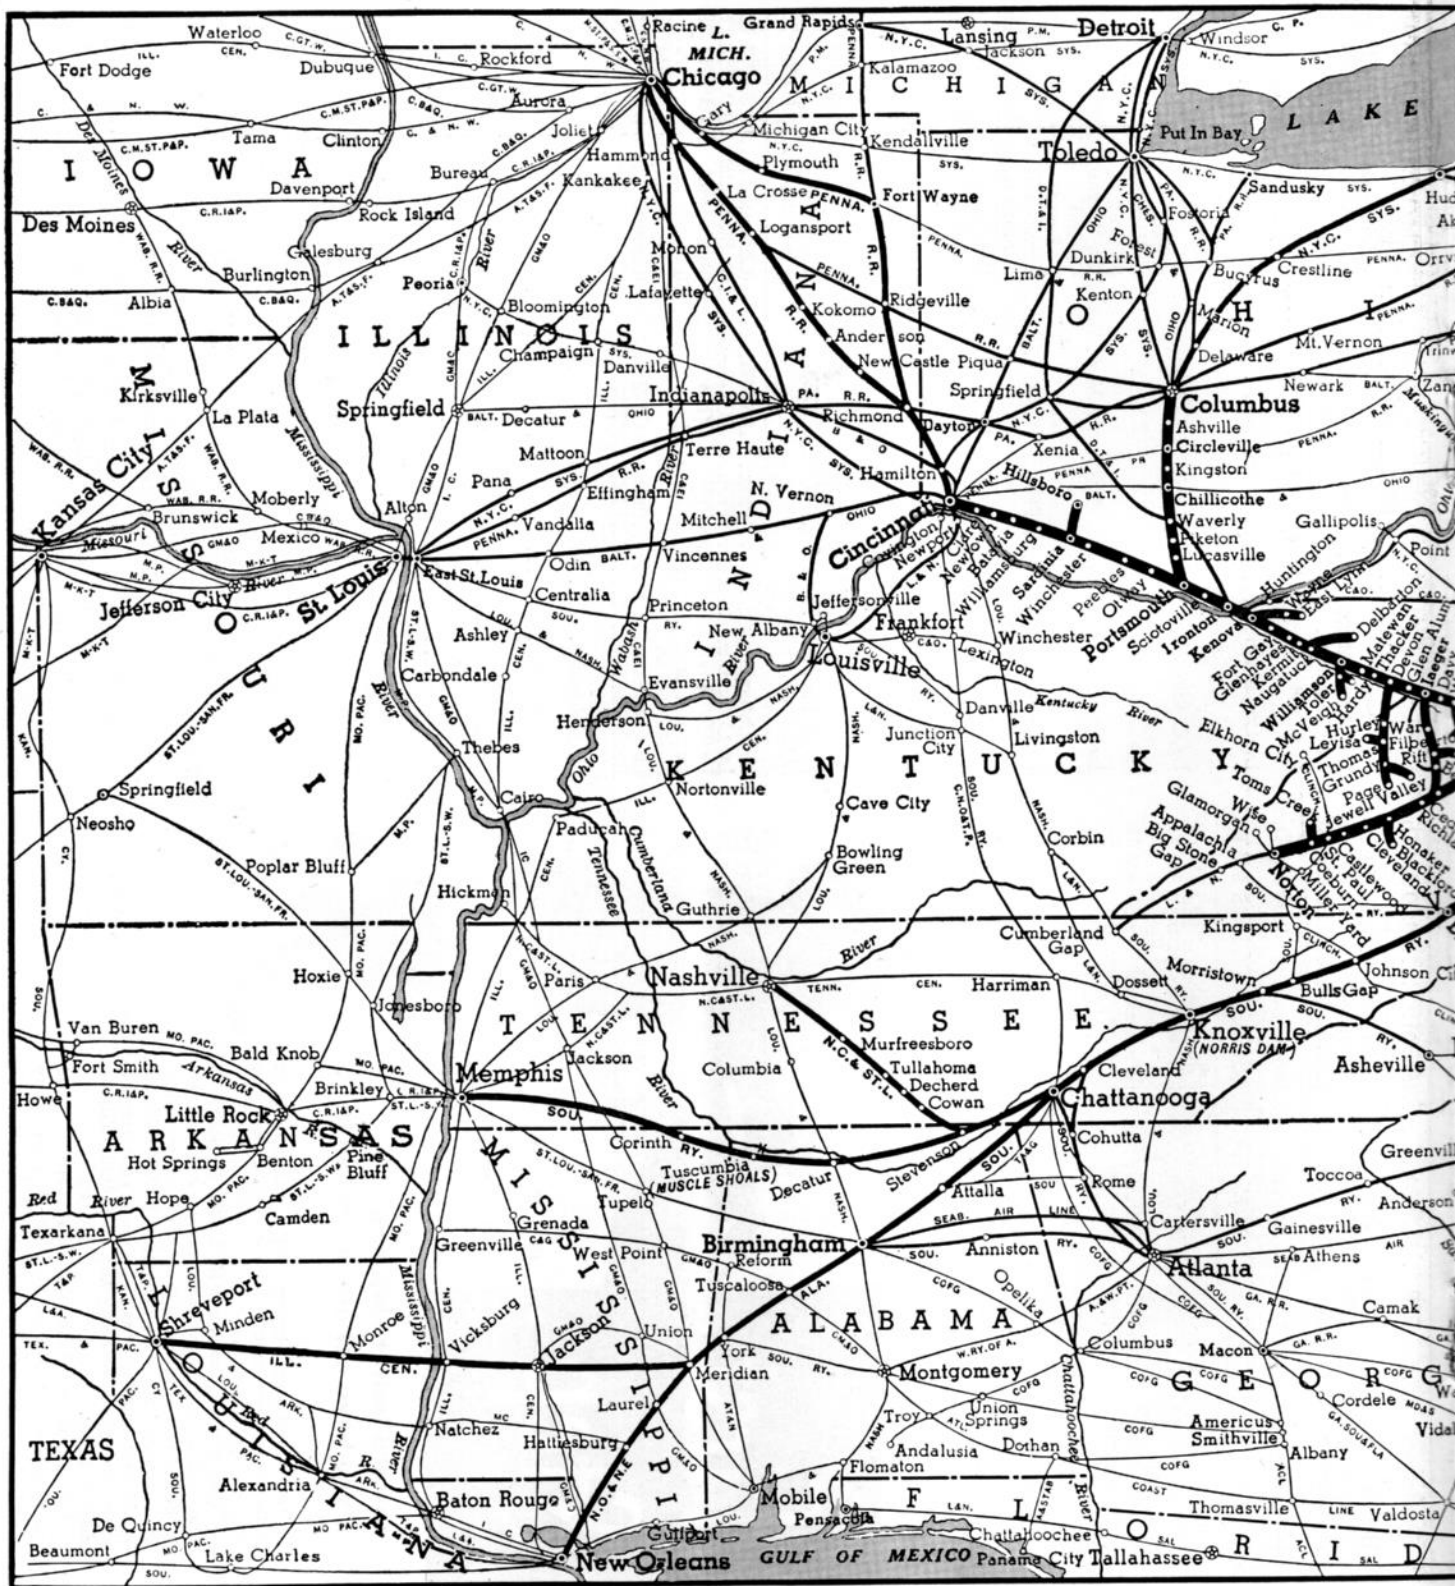

Then you can compare N. & W. service with that which you have been using. And we are confident that our team of transportation specialists, in combination with modern freight-handling equipment and facilities, will meet your requirements for speed, economy and all-around shipping dependability.

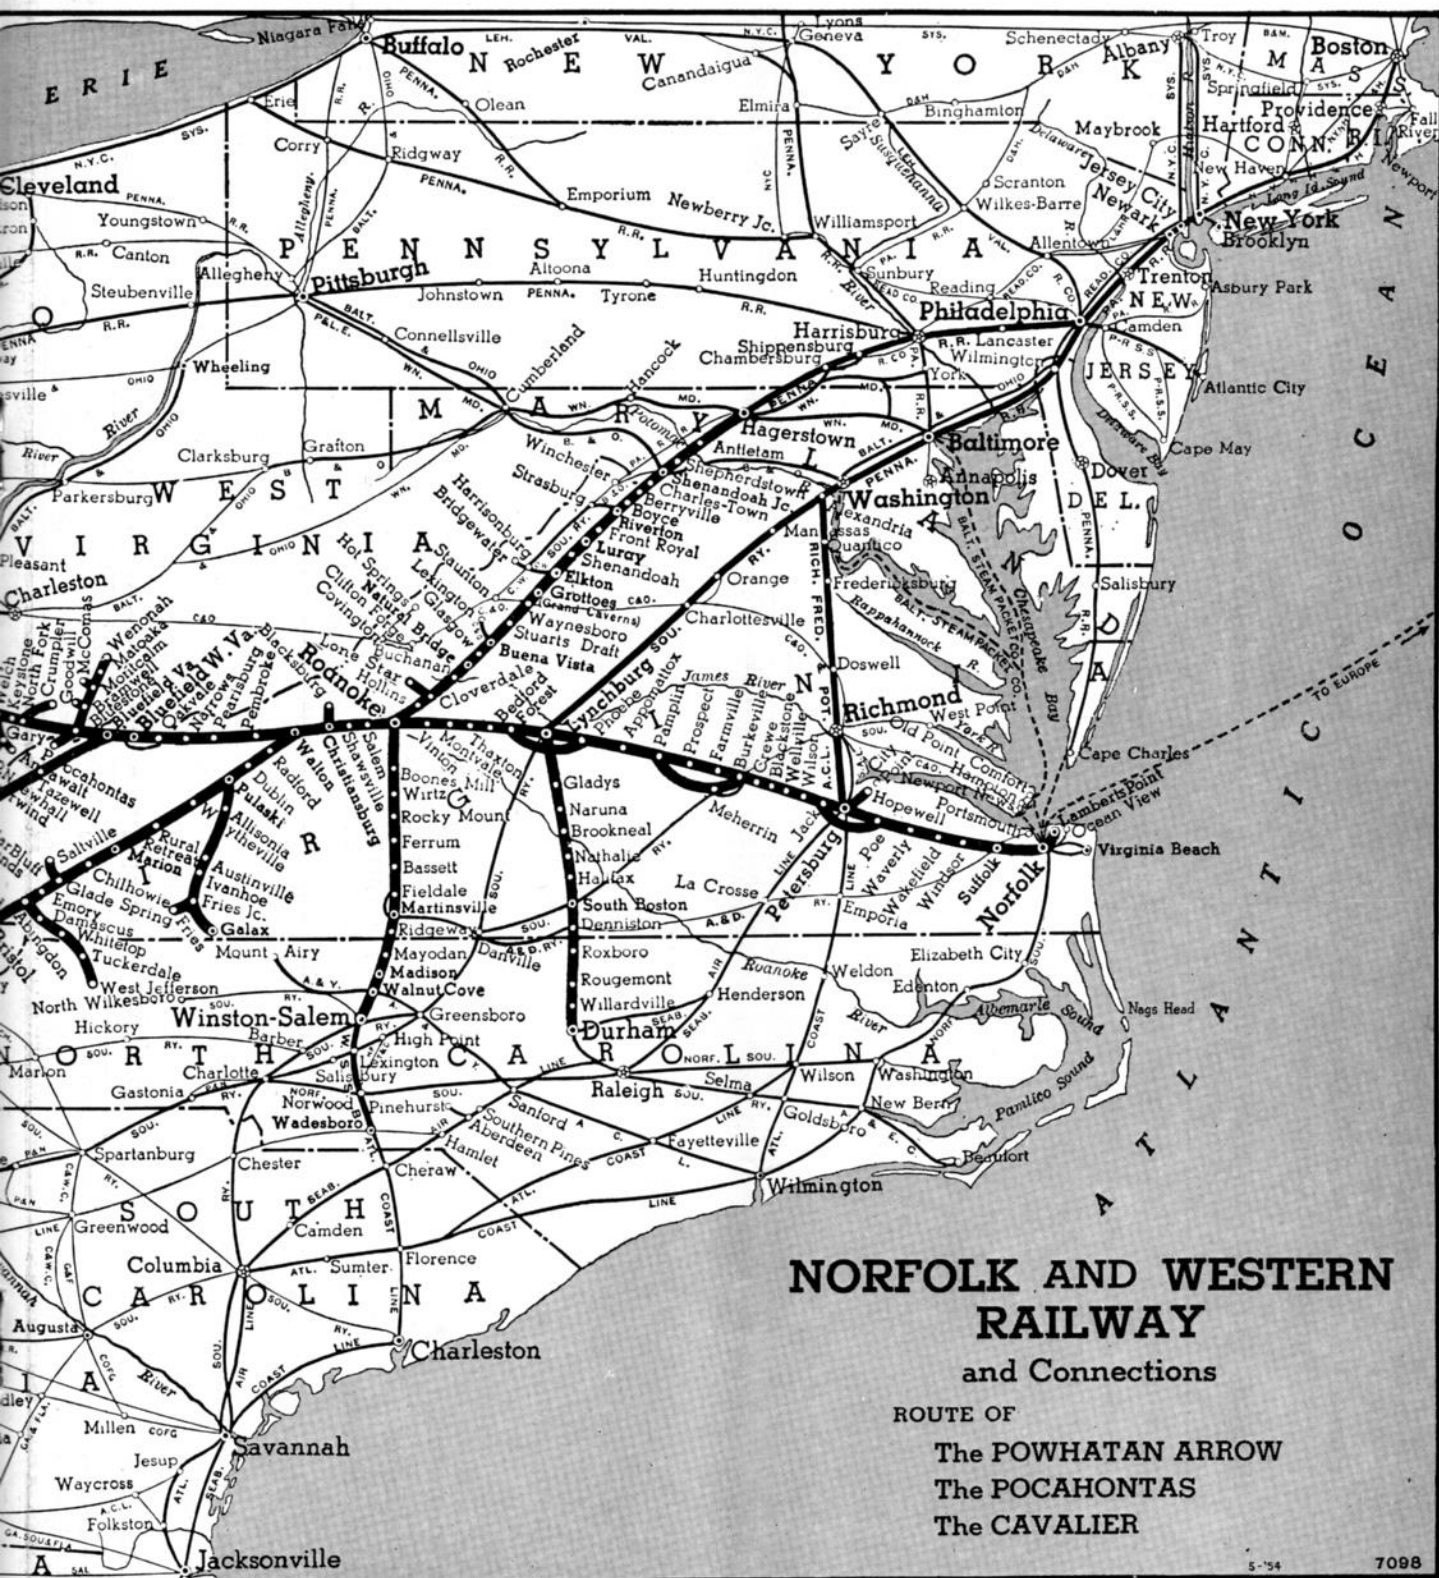

Try us once. Take that first step... and chances are you will be marking all your future shipments "via N. & W."

(A) Cars are moved Burkeville to Crewe by yard engine.

(B) Cars arrive Shenandoah in N&W 96 and moved to Elkton by Local.

TO SPEED YOUR SHIPMENTS . . .

Double Track for Double Running

From the Midwest to the Atlantic Seaboard, the Norfolk and Western mainline is double-tracked for fast, dependable shipping service. The very latest in electronic equipment—100 per cent automatic signal on mainline and centralized traffic control—stands guard along the way, helping to speed the flow of freight while assuring maximum safety.

Shippers use this smooth, solid "two-lane" mainline with confidence

founded on past experience. They have found, again and again, that the N. & W. delivers their freight where they want it when they want it.

The N. & W. may be your MAIN-LINE to shipping satisfaction, too. We invite you to discuss our modern, progressive and varied services with an N. & W. sales and service representative. There's no obligation . . . and it could save you time and money on future shipments.

For fast, efficient freight service between many of the nation's most important markets, route your shipments over the Norfolk and Western through Hagerstown, Maryland.

The N. & W. operates three time freights in each direction daily to and from this key interchange point and its schedules are closely coordinated with those of the Pennsylvania Railroad and the Western Maryland Railway. Adequate yard facilities assure the steady flow of traffic through Hagerstown.
