Norfolk Southern

-Your Thoroughbred Connection to the World-

Building Facilities and Services for the Future of Intermodalism

Norfolk Southern is The Thoroughbred of Transportation -- your full-service marketing and logistics partner for handling intermodal trailer and container shipments. As the nation's safest and most efficient major rail system, Norfolk Southern has the track record for dependability, speed and quality that shippers and receivers around the world have come to rely on.

Norfolk Southern Railway Company provides a single-system rail service network that stretches from the South Atlantic and Gulf ports to points as far west as Kansas City, and as far north as Detroit and Welland, ON. A growing network of dedicated, service-driven intermodal trains connects the 30 strategically located terminals in Norfolk Southern territory.

The Norfolk Southern Service Guide is designed to provide you with a quick reference for information about the capabilities and services of each NS-served intermodal terminal.

This publication provides daily cut-offs and availabilities for intermodal shipments in selected NS corridors. The cut-off is the deadline for both the in-gate inspection, as well as for receipt of complete billing instructions by NS. For shipments grounded at the destination terminal in late afternoon, notification of availability might not be made until the morning of the next business day. Complete information can be found in the **NORFOLK SOUTHERN INTERMODAL RULES CIRCULAR**.

These schedules represent current service capabilities on local intermodal shipments moving entirely on Norfolk Southern; certain coordinated interline services are also included. Other interline shipments (with steel wheel interchange) may move on other trains, with different schedules to and from the gateways. While our goal is to handle all shipments as quickly as possible, fluctuating traffic volumes, limits in train capacity and equipment supply, changing train schedules, and severe weather may prevent us from meeting the expected availabilities. These schedules are for information only, and are not a guarantee of transit performance.

Norfolk Southern observes the following industry holidays: New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Friday after Thanksgiving, Christmas Eve, Christmas Day, and New Year's Eve. While train operations may be curtailed on these holidays, ramp facilities may remain open to perform normal terminal services.

Unless otherwise noted, cut-offs and availabilities at port cities are for shipments originating or terminating at NS ramp facilities. An additional day may be required to provide all-rail service directly to or from the pier.

For additional information about Norfolk Southern intermodal service, please call your Norfolk Southern Intermodal Account Manager.

Norfolk Southern

- The Thoroughbred of Transportation -

The Norfolk Southern Intermodal Cartage Listing provides a reference list of selected motor carriers authorized to handle railroad owned and controlled trailers at Norfolk Southern Intermodal facilities. Motor Carriers included in this Cartage Listing have been recommended by the Norfolk Southern Intermodal Sales Offices and Intermodal Marketing Department. Each currently holds a Plan 2.5 Trailer Interchange and Use Agreement with Norfolk Southern.

The Cartage Listing does not include all motor carriers holding a valid Plan 2.5 Trailer Interchange and Use Agreement with Norfolk Southern. Other qualified, competent motor carriers are available to perform the dray on Plan 2.5 intermodal shipment. For additional information about motor carriers serving Norfolk Southern intermodal facilities, please call one of the 16 Norfolk Southern Intermodal Sales offices.
