The Chessie Route

FAST FREIGHT SCHEDULES

This easy-to-use freight schedule booklet shows you at a glance the manifest train services between principal cities and interchange points on the Chesapeake and Ohio.

Originating points are displayed at the top of each page. Most are arranged alphabetically. You'll find a page index on the inside covers. Destination points are listed alphabetically on the margins of each page.

The leaving day and the arrival day in all cases are shown as examples only. All service is daily, except as indicated by the following reference marks:

NOTE a—Daily except Sunday

NOTE b—Daily except Saturday (Ferries do not operate between Sarnia and Port Huron on Sundays)

NOTE c—Daily except Monday. (Monday departures and arrivals under "Day" column, indicates example only)

NOTE d—Daily except Saturday, Sunday & Holidays

NOTE e—Traffic routed via Richmond ACL and SAL arriving Russell, Ky. in Trains 92, 192 and 392 is cut out and handled in No. 90-790 for delivery to SAL at 10:30 AM and ACL at 11:00 AM.

NOTE F—Ferry services, between Ludington, Mich., and Milwaukee, Manitowoc and Kewaunee, Wis., and between Newport News and Norfolk, Va., connecting with manifest trains as indicated by numbers.

Eastern Standard Time is used in all cases, except where CT designates **Central Standard Time**.

Service shown in this booklet is given as information only, for shippers and receivers. The schedules are not guaranteed and are subject to change without notice.

Issued March, 1964:

W. E. Mason, Freight Service Manager,
Chesapeake and Ohio Railway,
Huntington, West Virginia

Chessie Service for Special Purpose

Development pioneer and owner of one of the largest fleets of specialized equipment, C&O can help you benefit from easier, faster loading and unloading . . . better protection . . . more compact shipments . . . reduced dunnage . . . greater capacity loads. One out of every five of Chessie's modern merchandise freight cars is especially designed or equipped. They include a wide variety of tailored-to-use boxcars, gondolas, hoppers, flat cars—all offering important transportation savings.

Chessie Service for Special Purpose

COVERED HOPPERS
Prevention of contamination, protection from weather, ease of loading and unloading are among advantages of covered hoppers for movement of plastic granulars, cement, lime, malt, feed and other bulk commodities.

CHESSIE PIGGYBACK SERVICES

Chessie's piggyback is modern, imaginative, versatile. It's a weatherproof steel expressway through the industrial heart of America. It's cross-country, with time-saving connections with many other railroads.

Your resourceful, service-minded C&O man wants to show you how Chessie piggyback can serve your **special** needs.

Special insulated all-weather trailers are Chessie's answer for dry-van products that need protection against critical temperature changes while in transit.

Special reefer trailers receive the same careful attention to their perishable contents as regular refrigerated cars do on the Chesapeake and Ohio.

Special low-sided open-top trailers with removable sides, ideal for marble, steel, heavy parts . . . offer ease of loading and unloading with lift equipment. Tarpaulin protection.

SHIP IT C&O... AND CLIC!... WATCH IT GO!

With Chesapeake and Ohio's Car Location Information Center—CLIC for short—both shipper and consignee can know just where a car is at any time on C&O. They can divert it to another market if that becomes advisable, and they can know when to expect its arrival.

HOW CLIC OPERATES—As soon as a freight car leaves a classification yard or passes a major junction point on the C&O, complete information is teletyped to the Center. This report gives the car number, type of car, commodity, shipper, consignee, routing, train number, reporting station, month, day, hour, and any special instructions. If a car is delayed, for any reason, that is reported too. From CLIC, these reports are promptly teletyped to the C&O traffic office serving the consignee and also to the traffic office in whose territory the shipment originated. By means of CLIC's thousands of miles of circuits connecting 238 teletype receiving and sending stations, each of C&O's 56 freight traffic offices automatically receives complete information on all cars originating or terminating in its territory.

TRY CHESSIE'S CLIC—Route a car via C&O. Ask the C&O Traffic Office to keep you informed of its location. This simple test will show how useful CLIC can be to you.

Chessie Service for Special Purpose

Brooklyn, Buffalo or Bemidji... Piggyback moves it via Chessie

That's right! Now C&O's own piggyback trailers go far beyond The Chessie Route. For example, a Buffalo-originated shipment travels via C&O to a piggyback ramp in Chicago, where cab and driver take over to destination. That can be anywhere in 36 states, and three provinces in Canada, and constantly expanding.

This newly installed method, Piggyback Plan V, is a coordinated Chessie-trucker partnership to give you fast, economical service. From your shipping dock, merchandise stays untouched in modern trailers—and there's a type specially designed for your products—until it reaches your customer. Shipments can be made in either direction, on through rates and on a single bill of lading.

Is this for you . . . or would other piggyback plans more closely meet your needs? Your resourceful C&O representative can help you. And show you case histories to prove Chessie's Piggyback is flexible, dependable, designed for your needs.

LANCASTER, O. SALES AND SERVICE

S. M. Swaney, Traveling Freight Agent
Columbus, Ohio
Lancaster Telephone: 653-0350

CUSHION UNDERFRAME CARS
All types of lading, from fragile glass to heavy tin plate, now escape damaging impact forces. C&O's long-travel cushion underframe cars safely smooths away shocks before they reach the load. Some cars are also equipped with load dividers and adjustable side fillers.

DF-B CARS

DF-B CARS—The one-piece damage-prevention bulkhead, positioned and locked with one lever by one man, is today's fastest, most popular way to brace straight-sided lading. DF-B bulkheads require fewer moves and allow more lift truck room when loading. The bulkheads may be locked in the extreme ends of the car, flush against the end lining. They occupy minimum floor space and are adjustable in any direction.

Everything's here at

Newport News

Planned and developed by Chesapeake and Ohio as a complete project with every modern facility for incoming and outgoing ships—that's Chessie's own Newport News on Hampton Roads, Virginia.

■ Plenty of deep water ■ Modern handling equipment ■ Efficient merchandise piers ■ Two million square feet of warehousing ■ Great coal piers and yards ■ Rapid rail to shipside transfer ■ No lighterage or drayage ■ Huge gantry cranes ■ Drydock facilities ■ Fumigation facilities ■ World's most modern bulk cargo pier ■ Regular scheduled ship sailings ■ Ice-free harbor year round ■ Greatest tobacco port

It's easier to ship through Newport News

RUSSELL MERCHANDISE YARD...SPEEDS WESTBOUND TRAINS

The combination of its area—869 acres; its miles of track—194; its number of classifying tracks—134; its car capacity—14,500, makes Chesapeake and Ohio's terminal at Russell, Kentucky one of the world's largest classification yards.

Russell is divided into three principal operations, the Eastbound Yard, the Westbound Coal Yard and the Westbound Manifest Yard.

Russell Yard, located at the narrow waist of the Chesapeake and Ohio system, does most of the classification of westbound freight.

At Russell, all these trains are re-classified according to destination. Westbound trains leaving Russell through the different gateways are assembled in such a way that all cars routed to each way station are together and in such position in the train as to be most conveniently dropped off.

The completely automatic manifest yard with its 32 classifying tracks reduces the average time a car spends in classification and embodies the most modern devices for safer handling of merchandise freight cars.

The westbound manifest yard is completely automatic. One touch of a button sets up a switching program that guides each car to its proper track. And its speed is precisely regulated by an electronic computer so that it will join the other cars on its track with just enough impact to gently secure the coupling.

CHESSIE'S TRAINERFERRIES GIVE SHIPPERS A YEAR-ROUND EAST-WEST SHORTCUT

C&O's fleet of seven modern trainferries, as big and fast as many ocean vessels, ply Lake Michigan every day of the year on regular schedules bridging East and Northwest. They provide speedy interchange between Ludington, Michigan and the Wisconsin gateways of Milwaukee, Manitowoc and Kewaunee.

Freight-car carrying ships are just one of the many outstanding facilities of the Chesapeake and Ohio Railway. Ship C&O and benefit from them all.

CAPABLE HANDS SPEED YOUR CAR ON THE CHESSE ROUTE

To our customers, Chesapeake and Ohio is mainly identified with the C&O traffic representative. Backing him, thousands of employees have an experienced hand in our most important product—the fast, efficient movement of freight along Chessie's 5,100-mile route. They support every service-rendering activity the traffic man performs for you. Maintaining and operating the finest of modern transportation plants, C&O people are highly skilled and experienced in their work, conscientious in their attitude, resourceful in finding ways to serve you still better.

The best way to test Chessie's *outstandability*, first hand, is to try it. Why not let your C&O representative lend a capable hand to your next shipment?
