GENERAL INFORMATION
IDAHO DIVISION

Granger-Pocatello:

In this territory through drags are utilized to considerable extent in picking up of livestock, etc., to augment local service.

Pocatello-Glenms Ferry:

IDS train containing traffic originating Hinkle and beyond is handled through in that train to destinations on Second Sub-Division to augment local service eastbound Glenms Ferry-Pocatello.

Pocatello-Butte:

Pocatello-Gay Turnaround Local operates during season Gay Mine operated, usually between about April 1st and November 1st, depending upon weather. Train handles empty hoppers Pocatello to Gay, returning with loads destined Don.

Pocatello-Aberdeen Local established for operation during perishable season. Does station switching Blackfoot about Noon, handles branch cars into Blackfoot. This run established when Idaho Falls-Aberdeen Local discontinued.

Pocatello-Aberdeen Jct. Local established during perishable season, handles cars between Pocatello and Blackfoot, does station switching Blackfoot, handles perishables into Pocatello and this run established when Idaho Falls-Aberdeen Local discontinued.

Idaho Falls-Roberts-Pocatello Turn Local established during perishable season, does station switching at Roberts and handles perishables east from Idaho Falls and Shelley.

Pocatello-Lima Local does not go through to Lima now until heavy stock season. Handles merchandise and other traffic in connection Train 279 from Pocatello, continues through to Lima so that on eastward trip, this train can protect movement of livestock from such stations as Monida, Spencer, Dubois and Hamer and protects merchandise schedule from Idaho Falls 9PM to connection with Train 280 at Pocatello. Between Lima and Butte, local work is performed by Trains 277 and 278 except occasional Lima-Divide stock loaders.

GENERAL INFORMATION
IDAHO DIVISION
(Cont'd.)

Glenns Ferry-Huntington:

Locals in this territory, including branches, subject to change incident to various shipping seasons and explanations in Remarks Column generally cover local operation in this territory.

OREGON DIVISION

Huntington-Hinkle:

The Huntington-Durkee Local primarily established for the purpose of handling Lime and Nelson work. IDS due out of Hinkle 8PM daily due to arrive Huntington 7AM, handles pick-up and set-out work between Hinkle and Huntington. Primary purpose of this train is to take care of Idaho Division traffic originating vicinity of Hinkle, to relieve symbol trains of this work and avoid delay to such trains.

The Dalles-Albina:

In this territory, also, Trains 151 and 198 perform pick-up and set-out work augmented by occasional drags and The Dalles-Hood River Turn and Albina-Troutdale Turn.

Albina-Argo:

Trains 691 and 692 perform a certain amount of set-out and pick-up service in addition to regular local service in this territory. As these trains are time freights, this work is necessarily held to a minimum, particularly Train 691 which should not be over-burdened with local work to the extent that that train will not arrive Argo consistently on time.

Newly Established Schedule - Trains 683-684:

Train 683 Lv. Albina 4:30PM, Arr. Argo 10:00PM Daily except Friday & Saturday. No. 683 handles traffic for Tacoma and Seattle only, and is connection AKC. Train 684 is unscheduled; return Argo to Albina of power and crew and can perform any necy. work enroute.

GENERAL INFORMATION
OREGON DIVISION
(Cont'd.)

Spokane-Hinkle:

At present, Ayer-Pomeroy turnaround service is abolished and train is operated as service required about 2 days per week.

Ayer-Connell Turn handling spuds established each year August through September and this year looks like will run into October.

During October, probably be necessary furnish extra service at Touchet provide spots for beet loading.

- * Note No. 392 shows into Connell daily except Sunday. This is necessary to handle movement of peas from Connell to Moscow, Soon as this movement is completed, or necessary to establish a spud local, will return to Monday only operation into Connell on No. 391.
