

Issued by J. R. FORMBY
Assistant to Vice President
Southern Railway System
Chattanooga 2, Tenn.

MERCHANDISE CAR DIRECTORY

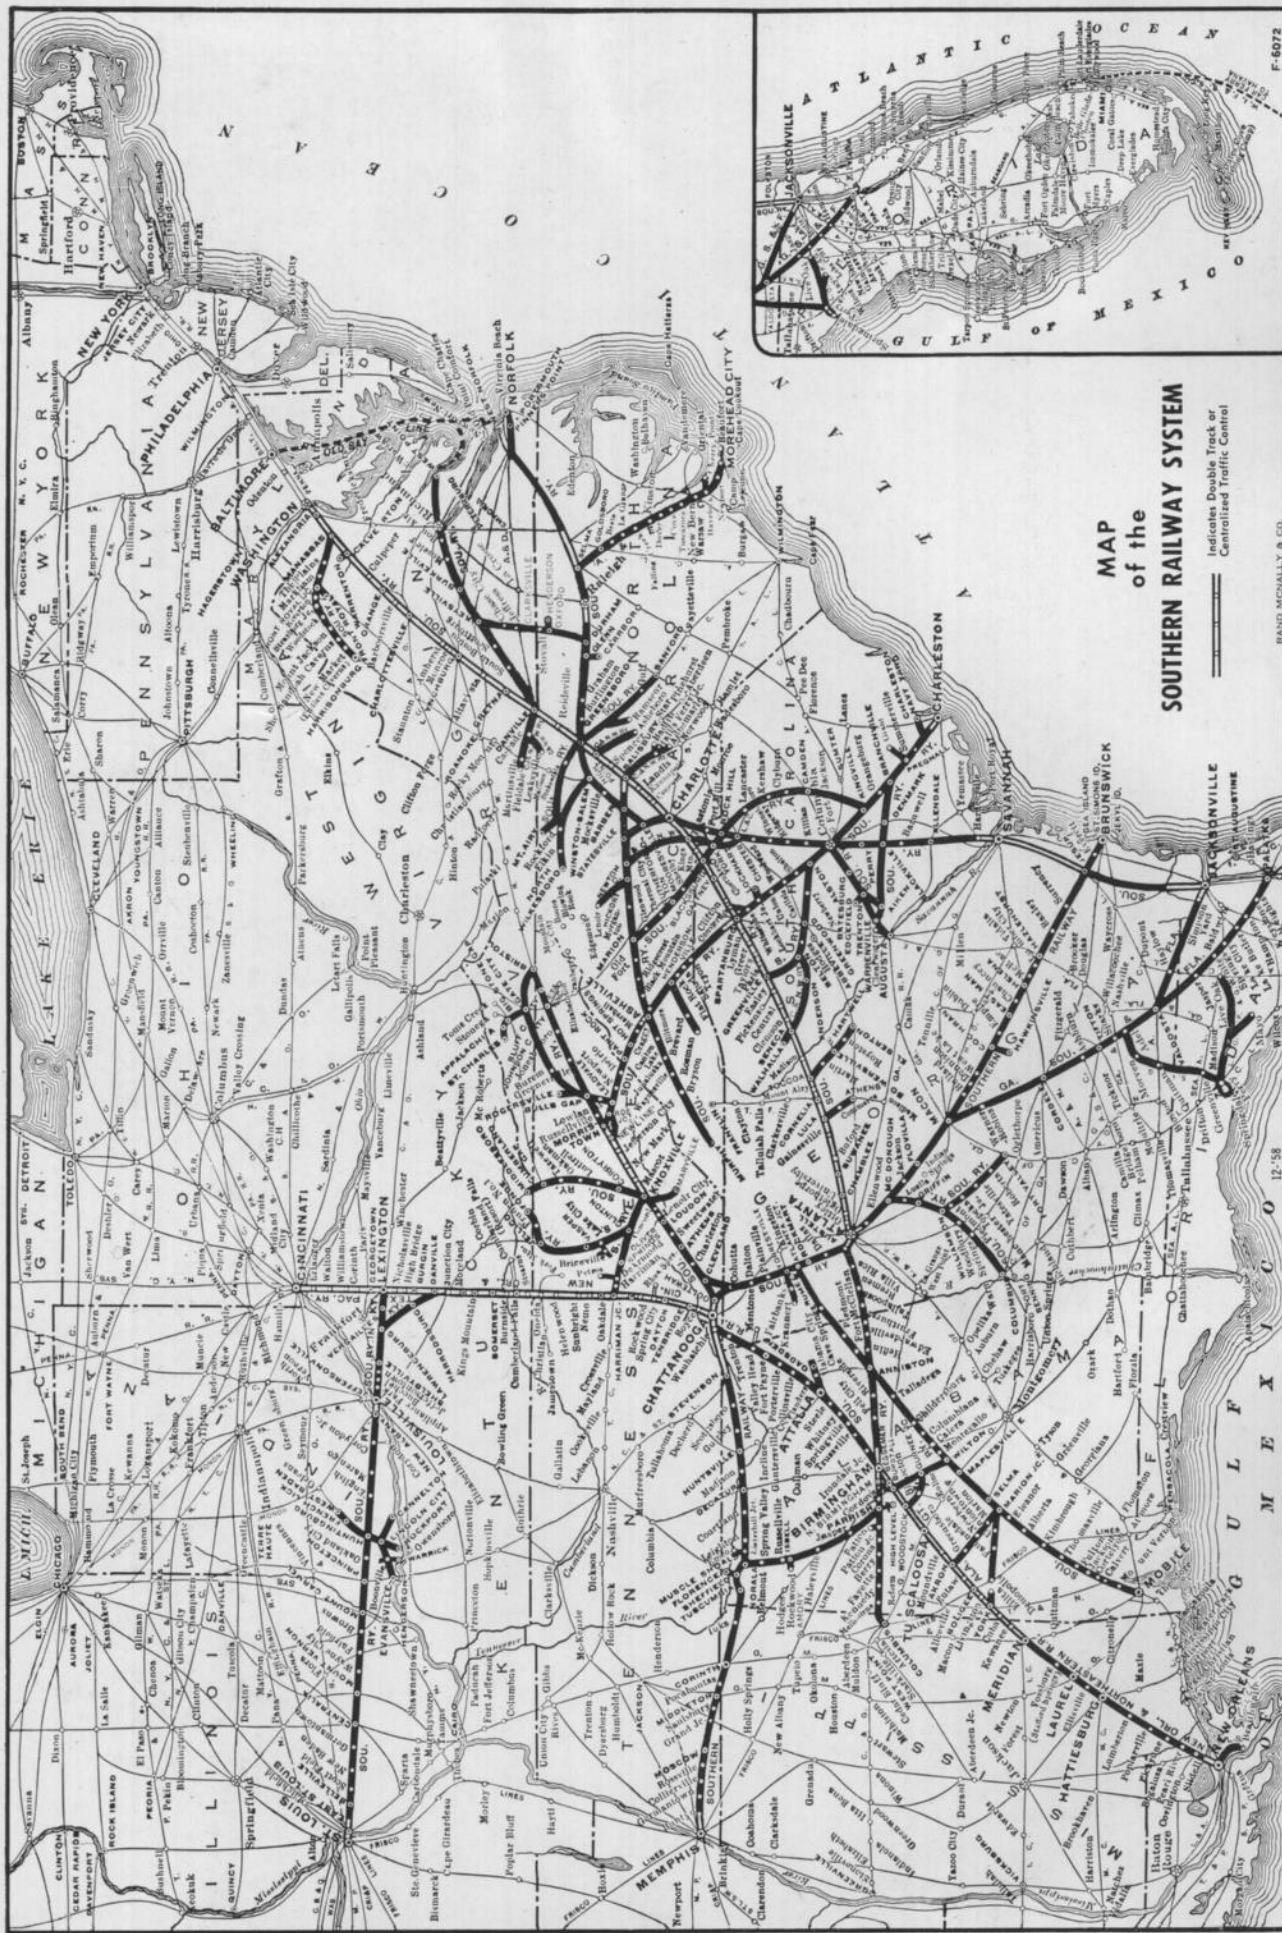

No. 5, Issued Mar. 1, 1959

**Listing Cars
Operated From and To
Principal Stations
and
Transfer Points**

**SOUTHERN RAILWAY
SYSTEM**

The Southern Railway System serves every state east of the Mississippi and south of the Ohio and Potomac Rivers (except West Virginia), and a line also reaches out across Indiana and Illinois to St. Louis.

AT YOUR SERVICE

This directory contains complete and accurate information about our merchandise car operations and routes. The schedules in it are based upon a careful study of the traffic regularly offered and they have been set up on a regular daily or tri-weekly basis according to tonnage volume. Changes in and additions to these schedules will be made whenever the volume of traffic calls for such action.

Transit time or "day due" indicates schedule time between loading station and break bulk point, including placement of car at freight house and normal availability of merchandise to customer.

Direct cars to consignees, destinations and distant transfers supplement the regular merchandise car service shown on the tables. Many such cars are operated every day but they cannot be listed as being in regular service because they depend entirely upon traffic volume.

All shippers who have a sufficient volume of traffic are urged to load Trap Cars direct to consignees or to the most distant transfer that will serve their distribution requirements. This will expedite the service and help prevent loss and damage. We will gladly assist in helping shippers plan loadings that can follow through-merchandise-car-service routes.

To serve you better, the Southern has a separate department that specializes in the handling of Less-Carload Merchandise traffic. It welcomes opportunities to help you.

J. R. FORMBY

Weekday or weekend—

and on holidays, too, when LCL traffic warrants — six key transfer stations on the Southern are “open for business” seven days a week, right around the calendar. This “daily including Sunday” service keeps your LCL freight moving through these points without interruption on convenient, time-saving schedules.

*7-day-a-week transfers at
following locations:*

ATLANTA, GA.

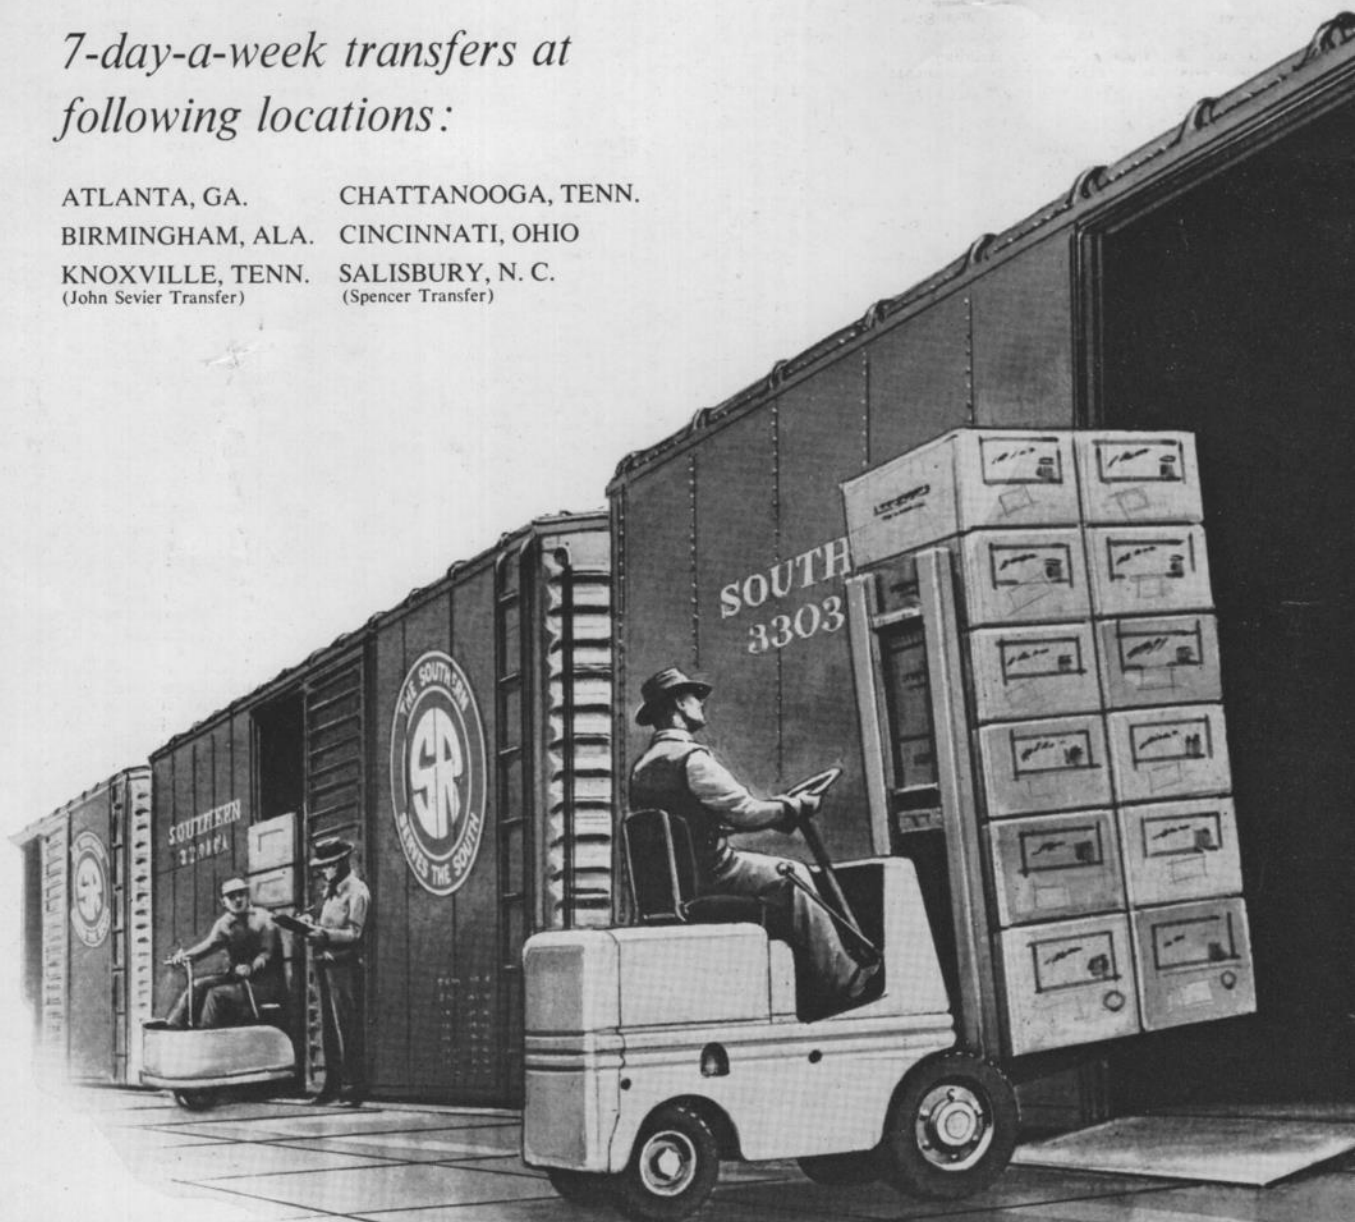

CHATTANOOGA, TENN.

BIRMINGHAM, ALA.

CINCINNATI, OHIO

KNOXVILLE, TENN.
(John Sevier Transfer)

SALISBURY, N. C.
(Spencer Transfer)

Gone with the wind!

SOUTHERN
RAILWAY SYSTEM

WHEN A FREIGHT CAR rolls down the "hump" in our new multi-million dollar electronic yards, even the wind resistance of the car is automatically measured.

While the car is rolling, a radar device instantly picks up and evaluates all the many factors that affect its rollability — weight, speed, size, wind, weather and others. Then the magic brain of an electronic computer regulates the retarder brake in the track under the moving car so that it will couple safely and gently to another car standing far down in the yard below.

This is ultra-modern railroading. You'll see it at work in countless ways on the Southern today — at Chattanooga and Knoxville, Tenn., Birmingham, Ala., and Atlanta, Ga.

Yesteryear railroading is "gone with the wind" on the Southern. Today's *modern* railroading means fast, dependable ever-improving service for shippers and receivers of less-than-carload and carload freight who say, "Route via Southern Railway System."
