

New York Central and
Hudson River R.R.

AND LEASED LINES

Ottawa and New York Ry.

STATION NUMBERS.

APRIL 1ST, 1914.

INSTRUCTIONS
FOR REPORTING
CONDUCTORS' CAR REPORT
N. Y. C. & N. H. R. R.

Commencing April 1, 1914, Station number and letters, as shown by this form, will be used in reporting movements of Cars.

G. H. ALEXANDER

SUPERINTENDENT CAR SERVICE.

Approved:

C. H. EWINGS,

SUPERINTENDENT FREIGHT TRANSPORTATION.

New York, April 1, 1914.

INSTRUCTIONS

FOR MAKING

CONDUCTORS' CAR REPORTS

N. Y. C. & H. R. R. R.

THE FOLLOWING RULES FOR MAKING CAR REPORTS MUST BE STRICTLY OBSERVED BY ALL CONDUCTORS:

Date the Report according to actual time of starting. The number of the track on which the train is hauled should appear on Report in space provided for that purpose.

The actual arriving and leaving time at stations or sidings where cars are taken or left, or where cars were iced in transit, must be given on back of Report, being careful to note whether A.M. or P.M. The words "On Time" or "O. T." must not be used.

When train is tied up for rest on account of the sixteen-hour law, notation is to be made near the bottom of space under heading "Arriving and Leaving Time at Stations," showing the actual arriving time and date, number of station or siding where tied up and under such number the word "Rest."

When crews are changed before completion of run, the report as prepared by first Conductor, which should be complete in all detail excepting that in column headed "Where Left" only such cars are to be shown as may be dropped from train during his run, is to be handed to relieving Conductor for completion, one report only being required.

Report every car in the train, whether Loaded or Empty, including the Caboose, which is always to be reported as Empty Car.

Report the numbers of all Loaded and Empty Cars in their proper columns.

Show total number of Loaded and Empty Cars moved during the trip in upper section of report.

Take the initials and numbers from the cars and not from Way-bills or Slips.

Insert carbon paper between narrow and wide sheet and then fill in all information required by headings of the report, the two portions making report complete.

Each line must be filled out, and no ditto marks used on the narrow sheet, as each numerical portion of same is to be cut into slips for Car Record Office use.

Enter initials and numbers of caboose cars, immediately following last car in train.

Care must be observed to use the proper blanks according to direction run, and to fill each column as indicated by headings.

It is of the utmost importance that the Report should show plainly and correctly WHERE *each car is moved FROM and TO*, and the final destination as shown by bill must be shown in the column headed "Destination."

The numbers of stations and sidings must be reported as shown by this form. When cars are taken or left at a station or siding to which a number or letter has not been assigned, the full name must be reported.

Numbers of cars with a letter or cipher prefixed or affixed, thus D3500, 1100A or 03200, must be so reported, considering the prefix or affix as part of the number. Initials must be entered in full and not abbreviated.

Caboose, dead engines and tenders should be treated same as car, and so entered on Report; also initial and number of engine

or engines used in hauling train should be shown in space provided for that purpose.

Weight of lading and light weight of car to be obtained from running slips or way-bills, and weight noted in proper column under "Weight in Tons." Where the fractional part of a ton is less than 1,000 pounds it will not be shown, only the even ton being entered. Where the fractional part of a ton is over 1,000 pounds it will be considered as one ton and so shown with even tons.

Letters and figures must be entered on Report plainly and distinctly, so that there can be no doubt for what they are intended.

This report must be made out during the trip and left with the Despatcher, Yard Master, Agent or Operator on arrival at destination (taking receipt for same in Train Book) to be forwarded to the Superintendent Car Service, Grand Central Terminal, New York.
