## GENERAL INSTRUCTIONS

This book shows regular through and local train service with connections and classifications and other freight service information for the guidance of all concerned. Necessary supplements, revisions or corrections to this book will be issued as required.

The times and trains shown are not guaranteed and are subject to change without notice. No track or running rights are conferred. Time shown is Eastern Standard.

When, in the opinion of the Division Superintendent, the volume of freight for any symbol train warrants operation of extras, they should so far as practicable, be operated in advance of the symbol train and be shown in reports by the prefix "Advance", "Second" or "Third" as the case may be. Changes in through or interline trains, or the make up thereof, shall not be made without authority from the Manager of Freight Transportation. Other service must not be permanently curtailed, added to or changed without the same authority. Day to day curtailments in local service may be made by division forces in the interest of economy, providing advertised service, where required, is fully protected and the Manager of Freight Transportation is advised.

Loaded cars cut out en route, account defects, should be repaired promptly and forwarded in first available train. Cars of livestock, fresh meat, fish or other perishables, explosives and other dangerous articles or Freight Forwarder Traffic cut out short of destination or junction must be reported by wire by the Division Superintendent to the Manager of Freight Transportation showing car initials and numbers, contents, originating point, destination and consignee. If necessary to transfer lading, instructions as outlined in Circular No. TD-52 or reissues will govern. Lading under refrigeration or heater service must be properly protected.

To gain new or retain existing business, it is necessary that expedited and dependable service be accorded. This means consistent on-time performance. Suggestions as to improvements in service are solicited.

## CLASSIFICATION INSTRUCTIONS

Listing of stations under Major Classifications as shown on following pages is to indicate to yard forces the major points of concentration where cars receive final classifying for movement to destination, and direct the manner in which cars should be classified at gateways or concentration points to eliminate and save switching at intermediate terminals.

To conform with blocking instructions under the symbol trains cars should be switched for major classification points as listed, except that these classifications do not supersede those that are made at various terminals to meet local requirements.

Close attention must be given to switching of cars destined to common points with the B&M. If waybill shows routing to destination "Via NYNH&H, B&M Delivery," car will be switched in accordance with classification shown herein. If waybill shows routing via a B&M junction and road haul to destination via B&M, car will be switched as follows:

Via Worcester, B&M for Boston, Clinton, West Concord,  
Lowell, South Sudbury, Worcester.

Via Springfield, B&M for Easthampton, Fitchburg, Holyoke,  
Northampton, Springfield, Mass.

The following Boston & Maine stations are located in the Boston Switching Districts:

Boston	E. Cambridge	Mystic Wharf	Rutherford Ave. -
Cambridge	Everett	No. Cambridge	(Charlestown)
Charlestown	Hoosac Wharves	No. Somerville	Somerville
Chelsea	Medford	Revere	W. Cambridge

Cars for above stations when routed as shown below will be classified as follows:

### Boston Classification ( Via Shore Line )

NYNH&H                      NYNH&H-Boston-B&M  
NYNH&H-B&M Delivery   NYNH&H-Union Freight-B&M

### Boston B&M Classifications ( Via Worcester & B&M )

NYNH&H - B&M  
NYNH&H - Care B&M  
NYNH&H - Worcester - B&M

Cars routed via Springfield for the above stations will be classified as Worcester because rates do not apply via Springfield.

Perishable and / or livestock for stations in Boston B&M switching district will be handled in accordance with waybill instructions.

In case routing instructions shown on the waybills are not clear and there is any doubt as to route cars should travel, they should be forwarded via Boston ( Shore Line ) in order to avoid delay to freight.

Cars for stations on or via the Central Vermont or Canadian National will be switched at Cedar Hill into " New London - CV - classification " except that when billing routes via B&M, such cars will be switched into " White River classification. "

Maybrook and Cedar Hill will classify cars for Boston, ( via Shore Line ) as shown in special classification.

Cedar Hill will classify cars for Maybrook as shown in Special Classification.
