GENERAL INFORMATION

ARRANGED FREIGHT AND PACKAGE CAR SCHEDULE

NO. 77

Superseding Schedule No. 76, revised to October 21, 1946

SEE INDEX ON PAGE NO. 2

This book showing regular Freight Train and Package Car schedules on The New Haven Railroad and interline service via connecting lines, also New England Transportation Company's Highway Truck service, is for the information of shippers and receivers of freight.

The times and trains shown are not guaranteed and are subject to change without notice. Schedules of other railroads are shown as information only. No responsibility is assumed for errors or changes.

Freight stations are not regularly open for transaction of business on Sundays or Legal Holidays, and freight service is curtailed accordingly.

If Sunday or Holiday service is desired, advance arrangements should be made through Local Freight Agent.

Passenger equipped refrigerators in freight service are restricted to movement on rear end of trains, regardless of classification, and normally advertised schedules under such circumstances do not apply.

INTERLINE SERVICE

In the through Interline Service the column headed "day" showing specific days of the week is for the purpose of example only to indicate the elapsed time between various points and has no connection with the days on which the trains operate. Only a few of the key points on other lines are shown and are for examples only. In some instances all of the routes beyond the New Haven's immediate connections may not be indicated.

EXPLANATION OF TRAIN SYMBOLS

Trains running under symbol designation are known as "symbol trains." The symbol is a letter-and-number combination for identification purposes indicating either initial or final terminal, or both.

SIGNIFICATION OF LETTERS USED IN SYMBOLS:

AT BOSTON

THE NEW HAVEN'S BOSTON TERMINAL MARKET

OCCUPIED BY

THE BOSTON MARKET TERMINAL COMPANY

FOR SALE OF

FRESH FRUITS AND VEGETABLES

Thousands of carloads from all sections of the country, as well as Mexico, reach the Terminal Market in the FAST FREIGHT and EXPRESS service of THE NEW HAVEN RAILROAD.

Because of its early morning sales and prompt distribution, it has become a market for fresh fruits and vegetables for all of the 8,000,000 people of New England.

Liberal reconsigning privileges are offered owners, shippers and receivers of carloads of fruits and vegetables when routed via the New Haven Railroad.

The Providence Fruit and Produce Building

PROVIDENCE, RHODE ISLAND

Many wholesalers enjoy the modern facilities in this concrete and steel, fireproof building 965 feet long, containing 224,000 square feet of floor space, served by New Haven Railroad sidings.

Carloads of fresh fruits and produce from all sections of the United States and many foreign countries are sold by these dealers to the consumers within a 25 mile area.

All rail lines connect with The New Haven Railroad, offering excellent service and liberal reconsigning privileges to and from the Providence Terminal.

Ask any New Haven Railroad Traffic Representative for particulars.

(See outside back cover)

CLOSING HOURS FOR DIVERSION ORDERS APPLYING TO PERISHABLE FREIGHT

The execution of diversion orders for perishable freight received at stations other than specified below, after the close of freight houses for the day, will be dependent upon the availability of waybills to yard forces and others concerned.

For a car of perishable actually moving in a train, a diversion order will be executed if practicable but no guarantee can be given that a car so moving will be switched out of the train or stopped short of the original destination, or off-line junction.

Diversion orders for carload perishable freight at stations shown below when received not later than the time shown will be executed if carrier is not prevented by conditions beyond its control.

Perishable cars for which diversion orders are received after the times shown will be given best practicable movement consistent with traffic conditions at the time diversion order is placed.

Assemble at Your Plant

and Ship It Via

THE NEW HAVEN RAILROAD

Before you ship your next "out-size" job in pieces call *The New Haven's Traffic Agent*. He will tell you just how much may be assembled in your own plant . . . at a great saving of money time, and labor in the field.

Never conclude your shipment is too high, heavy, long or wide until *The New Haven* has been consulted. Let us tell you within a fraction of an inch just how big your shipment may be . . . and *The New Haven* will get it through.

You'll really sleep on

WHY WILL YOUR NEW PLANT DO BETTER IN SOUTHERN NEW ENGLAND?

The New Haven's Industrial Development Department has the \$64 answer to that question — pinned right down to facts, figures and advantages that no manufacturer can afford to ignore. If you are looking for a new plant site you owe it to yourself and your associates to investigate what Southern New England has to offer.

Less Than Carload Shipments

Succeeding pages list established *through* package cars from and to principal shipping and receiving centers and transfers. These cars, dispatched in

Fast Freight Trains

operating with dependable regularity, provide expeditious service between origins and destinations with minimum transferring enroute. These cars operate daily, except as otherwise indicated, via the routes shown, together with service to destination or break-bulk point. Shipping orders specifying routes to secure advantage of these through cars will insure best possible service to shippers and receivers.

L.C.L. freight from or for points contiguous to centers and transfers shown is handled by trucks of the New England Transportation Company, thus affording expeditious movement of freight from and to points where volume available does not permit of through cars.

Ship By This Service

thus assisting in maintaining these *through* package cars, to the advantage of shippers, consignees and the carriers.

The Merchandise Traffic Department of the New Haven Railroad, located at Boston, Mass., as well as any representative of the Sales and Service Department, as listed on back cover of this book, are in a position to assist in any of your less than carload and other traffic problems.
