**LIST OF
STATION NUMBERS**

**For Information of Conductors in
Honoring Train Checks
Which Show Point of Origin and
Destination by Station
Numbers**

Pages 1 to 17.

List of station numbers in numerical order, with name of station opposite.

Pages 18 to 34.

List of stations in alphabetical order with station number opposite.

Actual station numbers only are shown herein.

When station numbers below 1,000 are punched on a train check, one or more ciphers (0's) preceding the actual numbers are punched to indicate that the figures in that column are not used—thus Rockford, Ill., for which station number is "80," would appear punched on train check as "0080."
