APPLICATION.

It is important that representatives of connecting lines have shippers specifically state the delivery desired, particularly when more than one delivery is shown, and in the event of shippers not being in position to state the delivery desired, shipments should be forwarded in accordance with this schedule. (See **Exceptions**).

When property is offered for a consignee not shown in this list, and no delivery is specified, agents will request shippers to endorse on shipping order the delivery desired.

EXCEPTIONS.

The stations and team tracks named below are reached by the Western Maryland Railway through trackage arrangements over the Pennsylvania Railroad and under the terms of the trackage contracts, traffic to or from Firms, Industries or General Delivery at these stations and team tracks cannot be handled when originating at, or destined to, points located ON, OR WHEN ROUTED VIA THE BALTIMORE AND OHIO RAILROAD. This prohibits the Western Maryland Railway from handling any traffic at these stations and team tracks when moving to, from or via The Baltimore and Ohio Railroad:
