

**INDUSTRIAL TRACK
NUMBERS
AND
SPOTTING CODES**

ARLINGTON, TEXAS

DALLAS-FT. WORTH TERMINAL DIVISION

FOREWORD

Maps on the following pages are not drawn to scale. They are issued to serve as a guide in locating customer's tracks and the numbers assigned them.

The zones are developed by consolidating one or more switching districts or industry engine assignment service areas into a zone. Two digits are used to identify a zone on the maps and zone/track listing of industries. The zone number will be preceded by a zero on the teletype listings.

The track numbering for industrial tracks within each zone will be a three digit number in series 700 - 999, which is assigned to each track and the number painted on the switch target, where practicable. For example, if the number 04-700 appears on a switch list, it would designate Zone 4, Track 700.

The place or places on each industrial track where a car is spotted for loading or unloading is assigned a spot number. When more than one customer is located on the same track, the spot numbers will identify the individual customer's location on that track. Thus, if a car is to be spotted for Hi-Line Wood Products, it would appear on the switch list as 04-700-90; that is, Zone 4, Track 700, Spot 90.

When possible, the spot numbers are placed at the center of the car spots on the industry tracks to assure proper spotting of the car. Where it is not possible to actually place a spot sign at such places as Team Tracks, open areas for scrap or lumber and other similar places, a spot code is used. Codes are self-explanatory and appear on the following pages.

SPOTTING CODES AND SPOT NUMBERS

(1)

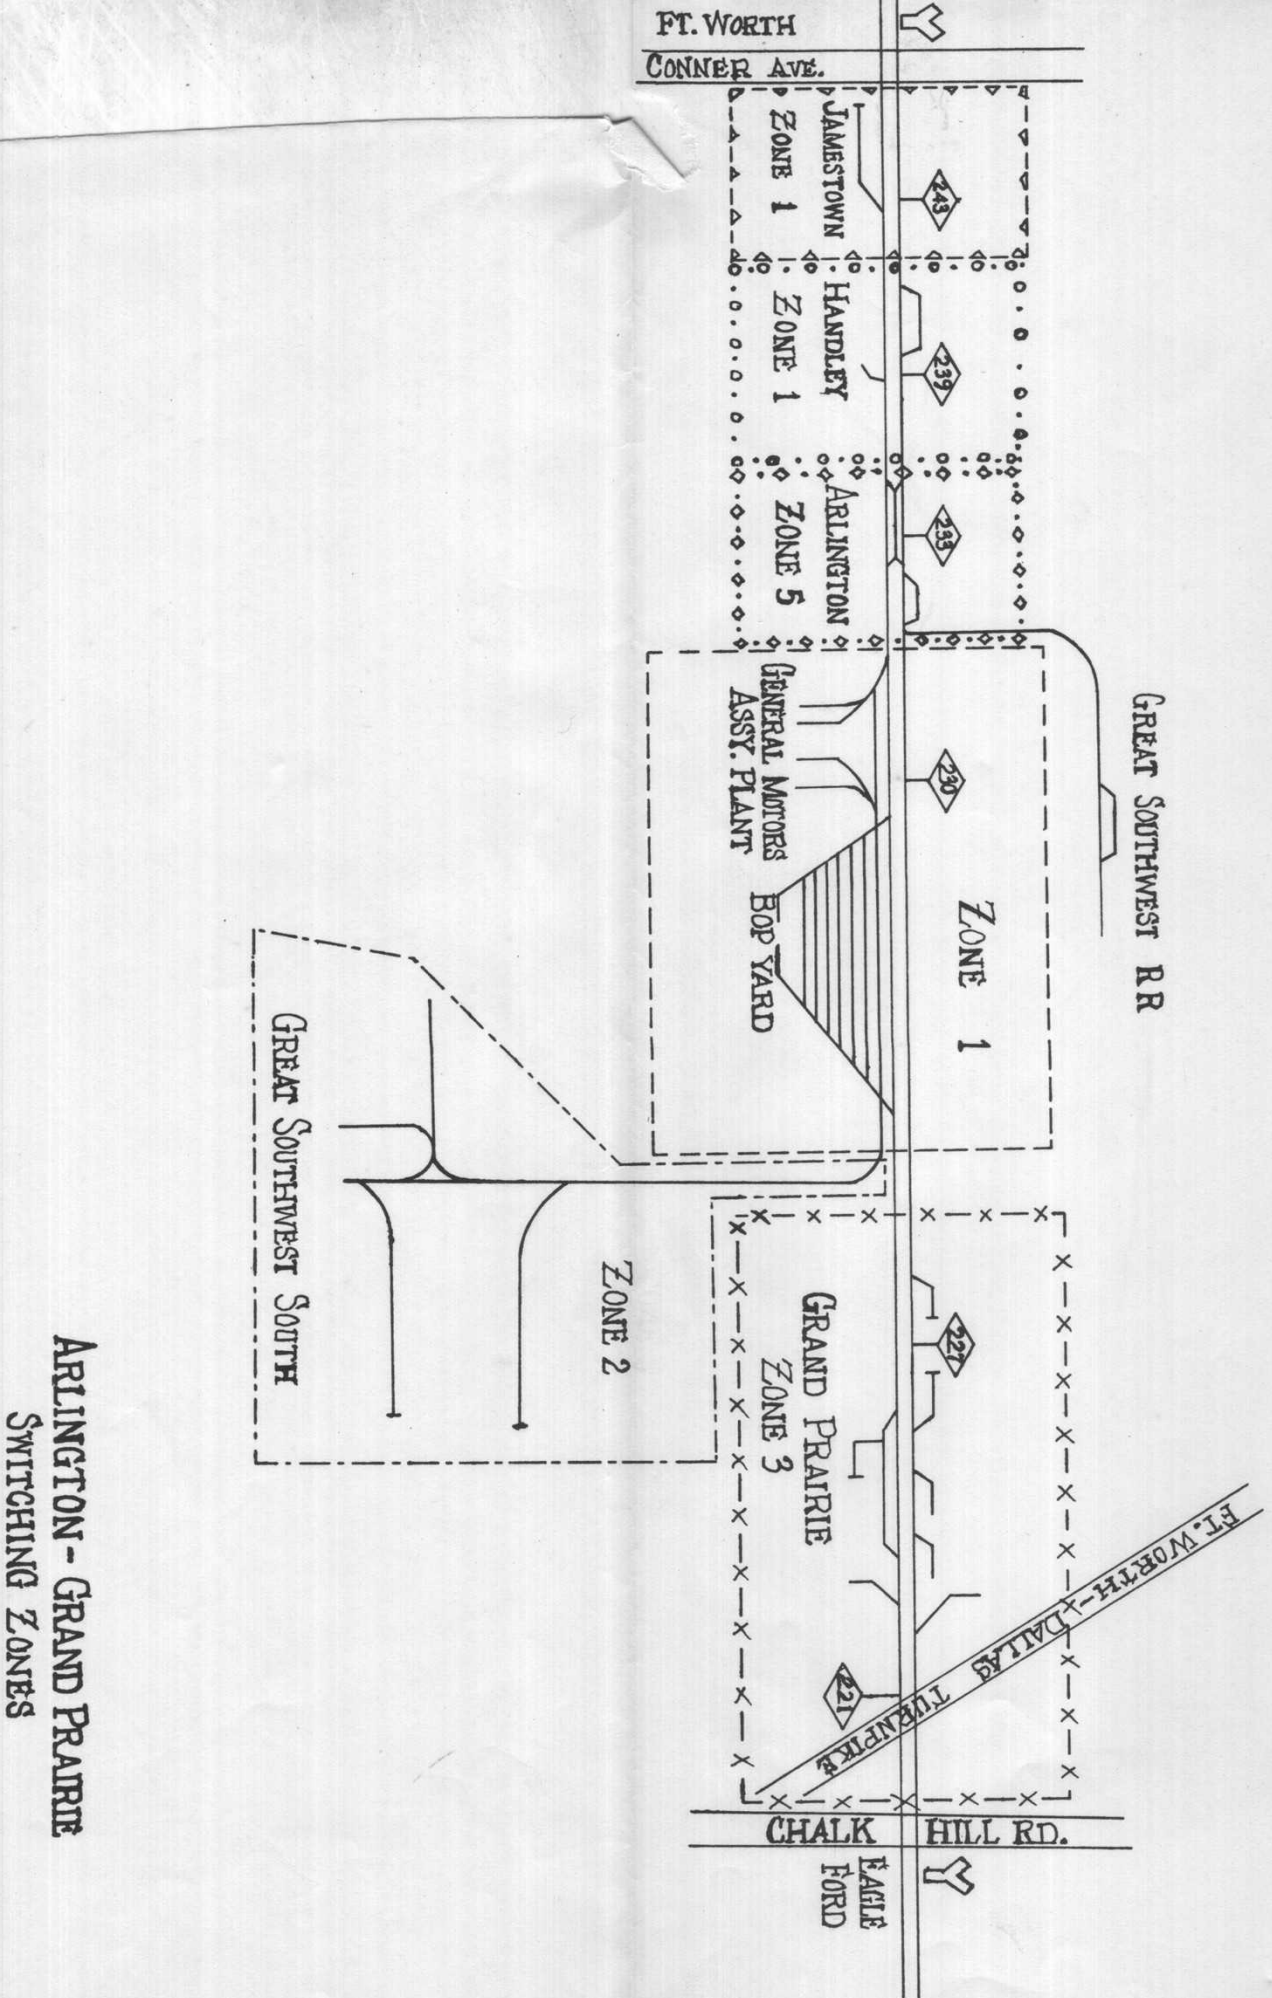

The following codes will be used in the Industry Car Control System by each industry Engine Foreman for his work order completion reporting.

CAR STATUS CODES

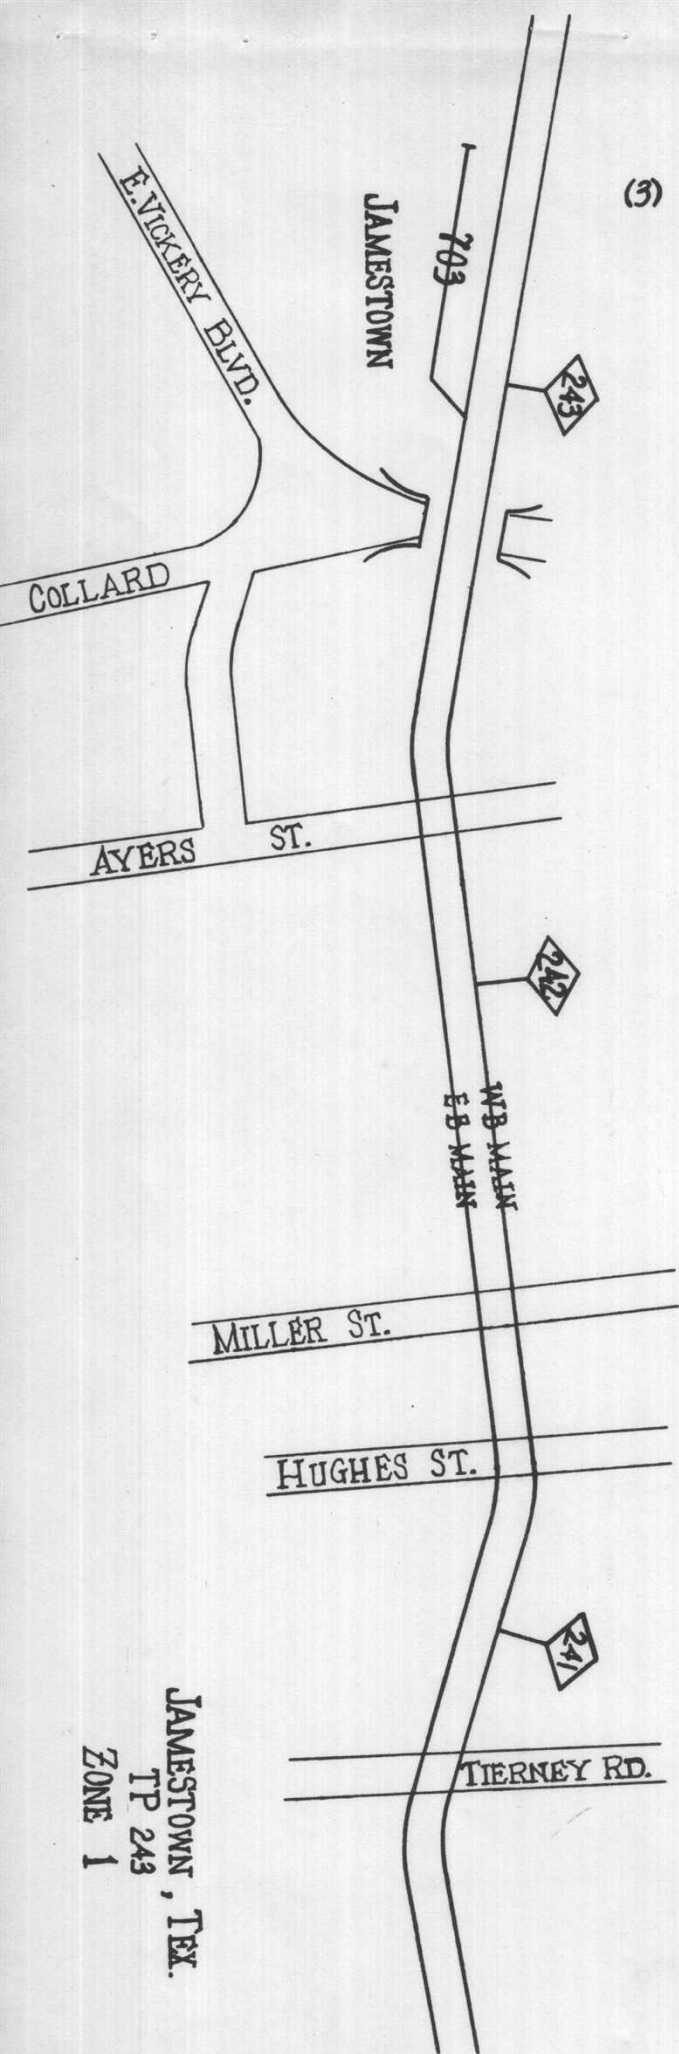

- Code 1 - For Engine Foreman to show a car LEFT on the track listed but not spotted.
- Code 2 - For Engine Foreman to show a car PLACED at a location authorized by the customer. (Indicate on the work order the name of person authorizing.)
- Code 3 - For Engine Foreman to show a car he attempted to place. (Indicate on the work order why not placed.)
- Code 4 - For cars which the customer requested to be HELD outside of his plant to be ordered in later.
- Code 5 - For Engine Foreman to show a car LEFT on a zone hold-out track.

SPOTTING NUMBERS

- 01 thru 89 - For specific loading/unloading places on industrial tracks.
- 90 - Open area scrap, lumber, etc. spotting.
- 92 - Inside building spots.
- 93 - Overhead crane spots.
- 94 - Hopper/Gon spots for gravel, sand, cement, grain, flour, etc.
- 95 - Dock or platform.
- 96 - Piggyback Ramp.
- 97 - Bi/Tri level car spot.
- 98 - Interchange.
- 99 - Team or Public Freight Track Spot.
